HATE BEING SOBER - August 31, 2011, 7:00 pm

sweet ass deface page love the audio broo.

ChewBox - August 31, 2011, 7:01 pm

Way too common. The only thing different between this and the other ones like this is the song, and
PERSONALLY i dont like this as a deface song.

Im pretty sure that skull and knife is one of the first images that comes up when you search google,
and the matrix background.. well do i have to say more?

You have the WHOLE internet to experiment with.

No offence but these kinds of deface pages are so overused.

Make a unique deface page, not one thats used by every little skid with 2 brain cells.
