Hack Facebook Account : Hack Facebook Accounts - Overview

FB recently released new way to Recover Account Password using "Three Trusted Friends" . If we forgot the Facebook account password then FB will send unique security code to three friends. Then we have to ask that security code to each three friend. And after giving that codes to FB we can recover the Facebook password. We can use this feature to Hack Facebook Account Free

So here we are going to misuse this new feature of FB to Hack Facebook Account. We have to just create 3 fake Fb accounts and then have to send the friend request from those 3 fake accounts to the victim. Victim must accept those friend request. Now we can use this above "Three Trusted Friend" feature to reset the victims' Facebook account password. I have given a full guide with screenshots on How To Hack Facebook Accounts.

Note : The 3 fake account must be 7 day older, otherwise this Facebook Hack will not work
Hacking Facebook Account : Hack Facebook Accounts For Free

So lets start on our tutorial on Hack Facebook Account For Free :

1. go to facebook.com and click on Forgot Password, so that you will see like this

6. Here is the main part of Hacking Of Facebook Account. Click on Continue and FB will ask you to select 3 Trusted Friends. There will be a full friend's list of the victim which also includes your previously created "Three Fake Facebook Account" . Just select that three accounts and then Facebook will send security codes to our fake accounts. Now collect those security codes and enter it. Then Facebook will send "Password Recovery Email" at the email address we entered in 4th step. Thus you can easily reset the password of victim's account. Now we have successfully done with Hack Facebook Accounts

Note : We have received the problems like they don't get the new page in step 5. So this depends on the victim's activity on Facebook account.
