The edition you are currently reading is the 57th full edition. To read any older editions of HF News, please go [here](#).

[Omniscient](#) has created a new section under the Marketplace - [Premium Ebook Bazaar](#). This section is for upgraded member sales only. It's mandatory that all e-books posted in this section be reviewed by the official Reviewers team. All new threads will be moderated; this means that once you submit your thread you will not see it until it's approved by a leader of the Reviewers team. [-BoodyE-](#) is the official moderator of the section. You can read the official announcement [here](#).

[Omniscient](#) is currently running a special offer for advertising on HackForums wherein an 88x31 footer image is priced at \$25 per month. This is quite a deal with it being 50% of his original price. You can read more about it [here](#).

There was confusion and mild uproar over whether or not forum-specific moderators can bypass the minimum message length of 35 characters. This confusion was cleared by [Omniscient](#) in [this](#) thread. He stated that group moderators are not forum moderators, therefore they should follow the 35 character limit.

[Omniscient](#) stated on his twitter that he has dismantled the Malvager group and removed the IRC link at the top of any HF page. you can read his tweet [here](#).

[Omniscient](#) created the Blizzards Battle.net forum category with 3 sub-forums (World of Warcraft, Starcraft Series and Diablo) in an effort to make things more organized.

[??? J????](#) was disqualified for MOTM this August. [Joey Tribbiani](#) won the MOTM for the month of August. We congratulate him on his wonderful achievement!

[Omniscient](#) has made another youtube video this week entitled Summer is Over, Back to Work, Back to School which in he explains various things - from what he plans to do on HF to his philosophy on school and learning. It's a very intriguing video which you can watch [here](#).

[xerotic](#) and [AsSaSs@iN](#) are no longer part of the Staff at HackForums. Both of them have now been allocated the position of a Mentor. [AsSaSs@iN](#) resigned to focus on his studies. Currently, the reason for [xerotic](#)'s demotion is not publicly known.

Last week, the HF News suffered an attempted hostile takeover. [Cobalt+](#) handed the news over to [Judge Dredd](#) after much harassment. After realizing his mistake, [Cobalt+](#) tried to recover it. Eventually, [Omniscient](#) made a new group Writ3rs. this group controls the HF wiki, [Help Docs](#), and most importantly, the HF News. [Omniscient](#) has stated that he will be making an official statement soon. The only people in this group at the moment are [Sir](#), [itylernallen](#), and [Omniscient](#). We at HF News hope to see what will become of this group and HF News.

[Valiant](#) accepted the newest batch of HJT Members, good luck to them! Their welcome thread can be found [here](#).

[??? J????](#) hit the impressive milestone of 2,000 positive reputation, the third member to do so. Congrats!

[Shinkirou](#) and [Peter Chao](#) both graduated from the HJT program, and are now full fledged HJT graduates. Their respective congratulations threads can be found [here](#) and [here](#).

[Minnesota Nice](#) is celebrating 2 years of Hackforums, and a total 18,000 posts. Coincidentally, he registered the same time [The Rated R Superstar](#) became staff. His thread can be found [here](#).

[The Rated R Superstar](#) created a topic addressing his experience in 2 years off staffing here at HF. His thread can be found [here](#).

[BV1 ?](#), [DaL33T](#), and [Orgy's](#) project: Booter Down, has claimed the life of over 30 shell booters. They claim to currently be targeting a total of 50 booters, an incredible sum. The thread can be found [here](#).

[X2THEONE2X](#) opened a thread about Water fasting, a very peculiar practice. He claims to have lost 40 pounds in 2 weeks and lowered his blood pressure. You can check it out [here](#).

[Scooter](#) posted a thread about a user allegedly being warned for 'Bad Grammar'. Some find it unjust, some find it hilarious. You be the judge, check it out [here!](#)

[Buzz Lightyear](#), the leader of Graphic Masters celebrated his birthday today. [Judge Dredd](#) created a thread to wish him a happy birthday, you can view it [here!](#)

Just when you thought Earthquakes couldn't get more contempt, a 6.8 magnitude earth rumbler hit Alaska on the morning of September 2nd. Although reported as a 7.2 scaled shake at first, the [USGS re-evaluated](#) to a 6.8, and issued a potential tsunami warning just to be on the safe side. But it turned out to be a small of a wave on the coast of the community of Atka. Because the earthquake was quite far away from the shore, minimal damage was caused by it and the residents of AK could sleep peacefully the rest of the morning.

They may be Anonymous, but they're definitely not unknown. In a bid to react against the recent activities of the hacking groups Anonymous and [censored], suspected hacktivists have been arrested in separate parts of the UK. According to a news report; Amazon, PayPal, the CIA, US Senate and the UK's Serious Organized Crime Agency have all suffered either intrusions or denial of service attacks, designed to take their websites offline.

Apparently, these arrests are the efforts of a mass roundup involving UK law enforcement and the FBI. So its safe to assume the US is also in cahoots here.

For more details regarding this, you can check out the article [here](#).

This Friday was probably one of the most exciting events in FPS gaming history with the grand opening of the COD XP convention, which was a convergence of fans around tie world both new and old to the Call Of Duty franchise. The event was held in Las Vegas, USA on Sept. 2 and continued on Saturday as well. The main reason why many of the gaming legends like Hutch and Sark were out there was for the Modern Warfare 3 multiplayer preview and the \$1,000,000 COD Tournament. The event was concluded with USA's Team Optic taking home the grand prize. For

Thanks for the news! Great as always. Sucks that there is no interviews but not a big deal.

Valence - September 4, 2011, 8:26 pm

I noticed that the User News is more about the users, if you know what I mean. It seems as if you and the rest of the team who helped you make this dug a little deeper this time. For that, I commend the reporters. I'm glad that you mentioned the HJT Team, but perhaps that's because I'm one of the newly accepted members. Good edition, I'm glad you made this as opposed to...well, you know.

Update: Just noticed there are not any reporters. In that case, I commend whoever researched for this week's news edition.

Erg, imgur converted it to JPEG, so it's way more LQ than it should be.

I didn't post it this week. I'm not sure if I will post one this week or not.

If you save natively as a .jpeg on 12 quality, it's just as good as a .png. Maybe they came out LQ because of the automatic conversion.

I'm glad to see that your still writing the news, after the hostile takeover the other week, I was strongly against it and thought it was extremely unfair towards you.
