Thread: [How to Setup ShadowTech Rat With Pics!](#)

Teletubbies - September 5, 2011, 10:34 am

First we need to download ShadowTech Rat

You can download it from [here](#)

Alright we're going to start off by making a No-ip account

Go to [www.No-Ip.Com](#) and Create account follow the pictures

Now that we have our no-ip account made it's time to portforward

To Portforward you need to know your Routers user and pass default is ADMIN, ADMIN so try that

Since their are so many routers out their I won't show you how to portforward

You can portforward by finding your router [here](#)

And following the steps it says to portforward

Now it's time to set up ShadowTech Rat

When you open it, it should look like this

[IMG]<http://img18.imageshack.us/img18/8641/13935103.png>[/IMG]

Step 1: Click Configuration

[IMG]<http://img705.imageshack.us/img705/378/10563319.png>[/IMG]

Where it says Connection Settings

Put your port that you portforwarded to into that blank for Port:

For password put a password

Step 2: Click Create Server

Follow the Picture

[IMG]<http://img94.imageshack.us/img94/315/69696663.png>[/IMG]

You can Change the Assembly information to what you want it to be

If you want to put a icon on it click "select icon"

After you set it up click save profile

Then click build server

once your ready to start spreading click menu and click Start

Step 3: Spread!

If you have any questions Post here or pm me

ShadowTech Rat Isn't very popular because it was released yesterday

Nice work on the tutorial. Could have used some spaces after each part. Overall, nice work done.
Keep it up.

Teletubbies - September 5, 2011, 10:46 am

Thanks i'll try to improve on my next tutorial

KingCobraXD - September 5, 2011, 3:41 pm

Lol. I can't believe it. You've already created a tutorial on it. Nice work. =)

seboy113 - September 30, 2013, 2:37 pm

what port do i use?

I dont get that

sorry im new

Nice tutorial.

I have never used this rat but info looks fairly good.

?

That because this RAT is OLD and Outdated, shown by the date this was posted

andy1994 - September 30, 2013, 7:21 pm

does this rat require port fowarding ??

?ain - September 30, 2013, 7:21 pm

Sorry, haha! I wasn't paying attention. I couldn't help but try a new one.
