I enjoyed watching it, well done. ?

Sejskaler - September 6, 2011, 11:54 am

I would say it is quite good, the beginning is great...

But it seems to lack effort when we get longer into it...

Nice job on the AMV, I enjoyed watching it. :D

The song goes well with the scenes and the ending was great.

Same as all your other ones... random clips together with nothing special to top it off. I doubt anyone watched all of this.

Yugen - September 7, 2011, 10:11 pm

Your best so far.

Wat happens at 0:57?

The sound ...

I also noticed the decrease in quality during the video.

It started so promising ...

Happeh - September 8, 2011, 10:05 am

I liked the beginning, clever idea, but I felt it was missing a "wow" factor.

I think it was very well made and I really enjoyed the song, but there wasn't too much in the effects department to amaze really.

I give it a 6/10

EWatson - September 8, 2011, 4:00 pm

Really good job, the song was also pretty good.
Enjoyed watching it! :)

Editing error made it jump. Was tried and uploaded it without relooking at it.

My effort starts good but then >.> I get bored.
