I liked the Lighting near the arm, and the background.
Overall, the image is great.

Maybe you can make one for me, sometime :)

Pretend - September 7, 2011, 9:40 pm

It looks really good but I'm not too sure about the text placement and its font.

Should work on that one.

Other than that, it's a nice looking signature with a good use of blue colour.

Keep it up mate.

OneandonlySunny™ - September 7, 2011, 9:59 pm

yeah its good

8/10

but somewhere i didn't find it appealing

Acrolyte - September 8, 2011, 4:23 am

Thanks,

I was debating whether or not to keep the text in the sig and just decided to, although it does look a bit better without any.

Yugen - September 8, 2011, 4:54 am

It look's good.It could be touched up soom.But it look's really nice 9/10 :)

Acrolyte - September 8, 2011, 9:04 am

Thanks, for the feedback RaidGame.

I appreciate all feedback on my work since it has been a few weeks since I've done something. :)

cyb3rzen - September 8, 2011, 9:18 am

nice work, I luv the effect.
8/10

hope you can make me some ^_^

Acrolyte - September 8, 2011, 9:29 am

Possibly, I don't really like working for others as I feel pressured when I have a time limit to do stuff, I enjoy working when I feel like it and my work usually turns out better this way.

Submariner - September 8, 2011, 9:52 am

OMG Lol I just played mortel combat with my friend on the PS3
Great Sig I Love It ?

Frequenceh - September 8, 2011, 9:59 am

bit picky but his left arm (our right) looks really sticky

Acrolyte - September 8, 2011, 10:01 am

Could you clarify on what you mean by sticky? I don't seem to understand and I wanna see what your looking at. :)

Windows 7 was my idea - September 8, 2011, 10:01 am

thats pretty dam sweet man keep up the good work 9/10

Anubis - September 8, 2011, 10:11 am

HAHAH...I can cut my hand that I've seen that sig somewhere already.
Same theme, size, colour and text. xD

Acrolyte - September 8, 2011, 12:30 pm

Rofl, I just made it the other night.

Emoji - September 8, 2011, 12:43 pm

I think it looks good, one thing i would fix though is his left arm (our right). You can see where the render you used ended maybe move him to the right border?

Acrolyte - September 8, 2011, 12:48 pm

Thanks for pointing that out, I thought I had moved him to that piece was hidden(guess not lol)
Going to fix that soon :)

engise - September 8, 2011, 2:52 pm

Looks nice but the color of his skin really doesn't blend in too well with the background. It kinda pops off. Maybe add a focus point to it ? Fake a FoV and fix colors here and there. There font of the text is kinda ugly and doesn't fit the whole signature. My rate for this is 6/10.

lad - September 8, 2011, 9:56 pm

Not to bad, fairly basic though.
Keep it up!
