Thread: [Demo My Caller-ID Spoofing Application -- FREE SPOOFING MINUTES!!](#)

Vacuous - September 7, 2011, 9:58 pm

Hey all. I'm starting up a caller ID spoofing service and I need some testers. I've got a desktop and web app developed and I want some people to give me feedback. You must have aim and provide actual feedback. I'll pick which 10 people to allow to use the service. Obviously higher post/rep will factor into this.

You get 50 FREE minutes which is the equivalent of \$10 w/ spoofcard/phonegangster. (actually same company).

Post here with what you'll be doing with the service and send me a pm with your aim nick. If you're selected i'll contact you with a download link for the desktop app and the url to the web app as well as account creds.

Thanks,
Tully

Here's a picture of the app for proof.
