Get a real domain, not blogspot. Also take those "share buttons" off. those are just ugly and annoying, imo.

Post thumbnails could be larger as they're quite small. Your website graphic (logo? banner? whatever) is pretty ugly too, no offense.

Just giving you an honest review. Cool site tho.

nF?r?e - September 9, 2011, 3:24 pm

I rather not look at brown women. :L.
