The original article and guide can be found [here!](#)

Add the source "http://cydia.pushfix.info/". Then search "TCP Optimizer" download and install then reboot. YouTube should play MUCH MUCH MUCH faster now.

I have tested this, and for me it works! Just thought I would share with you guys! ?

I've tried this and it DOES stream faster...

Btw if you use the pre installed YouTube app, use YouTube mobile on safari, way faster than their gay app.
