Thread: [\[REQUEST\] Deface tut \[DEFACE\]](#)

v11 - September 9, 2011, 4:58 pm

So anyone have a good deface tutorial for beginners? I really hope someone can help me out. I just started, and I have not found anything that is helping me.

Please link me something.

I tried to hold off on this thread, but I did search google, but I found no in depth tutorials.

Please help me!

Thanks,

-Avid- ?

Created this shit back in the day, but it should help you. Just remember that it should always be HTML coded since it's fucking simple.

use the search feature that is why it was added...

Wires - September 9, 2011, 5:07 pm

Im pretty sure that Search Function has been their for years ?

>:(Like I said in my OP I could not find any "useful" threads.

Sure I found some Deface tuts, but I could not find any useful ones. Thanks though. ?

pringles42 - September 9, 2011, 5:08 pm

No. Figure it out for yourself if you want to be such a twat. I honestly don't understand people and their need to deface things, what ever happened to getting in and out without being noticed.

Wires - September 9, 2011, 5:09 pm

Theirs really no TuT on how to make a Deface. Just be creative and browse google for some interesting coding tricks.

Search as in search this forum, not google. Use the search function. Are you looking for a "how to make a deface web page", or are you looking how to actually get into a website using vulnerabilities?

I just made a post, because I am a beginner, and it shows some of the steps on how to achieve certain goals. I am hoping some of the more experienced members can give me advice on the places I am stuck.

Yeah, I am trying to learn to get in using vulnerabilities. Sorry I should have specified on that...???

Not a problem. Here is my thread <https://hackforums.net/showthread.php?tid=1708041> so you can take a look at some of the things I have done, what programs I used to get there and where I am stuck. Hopefully some of it will help you, and if people start responding to help me, it will help others in the same type of situation as well.
