How to Setup NO-IP

Hello All! This will be my 1st REAL Tutorial! This will help all in need of how to Pre-RAT Setup! This is for BEFORE you download a RAT, and get it all setup, you HAVE To do this. like, It's a MUST. I hope you all enjoy ;)

~~

1) Go to No-IP.com

Spoiler [\(Click to View\)](#)[Click Here!](#)

2) Click on 'Create Account' (If you don't have an Account already)

Spoiler [\(Click to View\)](#)[Click Here!](#)

3) Fill out your information, and enter a VALID E-Mail Address. You need to confirm your email address. Then go to your email, Confirm, and you will be redirected to a page. Download the No-IP Client (DUC) for your CPU.

Spoiler [\(Click to View\)](#)[Click Here!](#)

4) After you have downloaded and Installed DUC 3.0, Go to No-ip.com and login to your account. Then, press on Add a Host.

Spoiler [\(Click to View\)](#)[Click Here!](#)

5) Add anything as your host name. and for your domain name, pick these 3 choices:

no-ip.org

no-ip.biz

no-ip.info

(Easiest and Recommended)

Spoiler [\(Click to View\)](#)[Click Here!](#)

6) Celebrate! You did your first step to finally setting up your RAT! You now have you're HOST to use on RAT Setups, when it asks for Host. Now, Next tutorial will be for Port Forwarding.

-This was just a quick and easy Tutorial for all the Noobs to get in! If anyone wants to, You can upload my Fail Screenshot photo's to photobucket, so I can use the IMG BB Code Tags. So it doesn't look so ghetto. Thanks~ I'm lazy. umad?

Paze - September 9, 2011, 11:29 pm

Thanks alot for this

Hoping to set up a rat soon but im nooby xD

Prince™ - September 10, 2011, 12:17 am

Why is the tutorial in Tools and program sections dude? ?

Insidious. - *September 10, 2011, 9:34 am*

It's just a basic tutorial for all Noobs with new RATs. Some people have trouble making the No-IP.
Another basic tutorial will be Port Forwarding
