King_Cooper - September 10, 2011, 12:21 am

OVER 1500 WORDS! ALMOST 11,000 CHARACTAERS

Introduction

What is e-Whoring?

e-Whoring is a form of Human Manipulation/Social Engineering in which you sell pictures or videos of a girl to males you find online.

Different Ways to e-Whore

There are several ways to e-Whore, but I will only cover two because they are the best two.

Selling pictures/camshows

Blackmail

Getting Started

Items needed:A good VPN

A picture pack/camshow of your choice and a name for your whore

A verified Paypal account (recommended)

A Canadian Paypal account in your whore's name

A girly email account ex: meganlovely@hotmail.com

MSN/Yahoo Messenger downloaded on your computer

Good SEing skills

Patience

MOWtool (recommended)

ManyCam (for camshows)

Note

You can use Amazon gift cards or even AlertPay as payment options, but I will not go into those since they are self explanatory. You just make an Amazon or AlertPay account.

The first thing you need is a good VPN. I prefer ProXPN, but have used [censored] as well and they both work well. I would not use a proxy. Make sure to be behind the VPN when you create all of your accounts.

Next, you're going to need a good picture pack. I will link to one at the bottom of this guide.

If you have a verified Paypal in your name that's great. It will make the process much easier.

You are going to need at least one email for your whore. I would make one on Yahoo and one on Hotmail. Make sure it is something girly and not "l33th4x0r5sk1ll5@hfl33t.com" or something like that.

You will also need a Paypal for your whore. It is recommended to make either a Canadian or an Australian Premier Paypal, because they aren't limited automatically like USA ones. --Simply use <http://fakenamegenerator.com/> to come up with a Canadian/Australian address, Postal Code, and phone number.--

MOWtool is a tool made by someone here on Hackforums. I will link to his thread at the bottom of this guide. His tool is amazing for e-Whoring.

MSN Messenger/Yahoo messenger for talking to your customer.

Basics

Now that you have everything set up you need, there are some things we need to go over. They are pretty basic and self-explanatory.

Be behind a VPN at all times. When creating an account, when talking to people, or anything e-whoring related.

Clear your cache, flash and browser cookies, etc. They can raise your chance of getting limited by Paypal.

NEVER get involved with child pornography.

Create one story and stick to it. Write it down if you have to. If you get them mixed up, bye bye money.

If you EVER feel as though your personal identity is compromised, quit immediately.

Don't spam chats, and don't oversaturate places. If there are too many whores in one spot, find another.

ALWAYS make the "customer" pay before the show or pictures.

Hide all of your materials in a hidden folder on your computer.

Best sites to e-Whore On

Don't even bother with Craigslist. <http://backpage.com/> (must pay \$1 to post in adult section, but is way undersaturated.)

<http://www.usfreeads.com/>

<http://123teenchat.com/>

<http://Omegle.com/>

<http://www.ebayclassifieds.com/>

<http://www.freeadvertisingforum.com/>

<http://adlandpro.com/>

<http://chat-avenue.com/>

Some online games (Second Life) or forums

Most chatrooms will work. Just google "adult chat"

If you find a good place, I wouldn't give it away. Except, maybe to me :)

Part 1: Selling pictures/camshows

How to Actually e-Whore

Okay. We've gone through what e-Whoring is and why you'd want to do it. We've gone through all of the required materials and basic info. You know which sites to go to. Now for the e-Whoring.

You always want to talk like a girl for obvious reasons.

Consistency is king.

Come up with a good story. Maybe you're 19 and in college, but hardly have enough to pay for textbooks + rent. Maybe you're 18 and just got kicked out because your dad and you got in a fight. Whatever your story is, write it down. You want to have a story, an age, height, weight, a birthday, and everything else written down so you are consistent.

Generally, posting in classifieds is easier than e-Whoring in chats. Here is an example of one of my posts.

Spoiler ([Click to View](http://imageshack.us/photo/my-images/88/adexample.jpg/))<http://imageshack.us/photo/my-images/88/adexample.jpg/>

Short, sweet, and to the point. Stick to a format like this. Add pictures as well (had to crop mine out because of nudity).

If you are going to e-Whore in chats, you must have good SEing skills.

Saying anything like "female/19/Florida" is likely to get you a dozen chats in 10 seconds. You can decide to be up front with them and tell them you're selling pictures or a camshow, or you can be subtle and take a lot longer. It is your choice and comes down to your discretion.

Continue talking to them, and try to make them get turned on. Tell them how much you "want them" or whatever it takes. The more convincing you are, the more you get paid.

They will more than likely ask for your MSN and a few pics. Send them a couple of good "teaser" pictures to get them warmed up, and talk to them on MSN. Never send too many pictures.

If you are offering pictures, sell them for \$10-25 or \$1/picture. Don't be too cheap otherwise it will be suspicious. Give them your Paypal email and make sure you receive the payment before giving them the pictures.

Camshows are generally worth more, depending on how long they are. They will more than likely ask you to prove its "you" on cam, so get a camshow with a ton of "proofs". Load your video segments into Manycam. Make sure to go into the settings and get rid of the watermark. MSN and Skype both have settings to let you stream from ManyCam instead of a real webcam, so make sure you set those settings. Give them your Paypal email and make sure you receive the payment before giving them the show.

Always make sure to mute your mic. That has screwed me out of a deal a few times.

Always keep in contact with your "customers". Sometimes they will make future donations and/or purchases.

Eventually you will get good at talking to them, and you will have your own techniques. I didn't post word-for-word conversations because you need to find out what works for you.

Part 2: Blackmail

Blackmail? How? Why?

Unfortunately there are sick pedophiles in the world. They willingly buy nude pictures of minors. We can play this to our advantage if you don't mind resorting to blackmail. This can easily bring in \$3,000 a week. However, the dangers are higher.

How to Blackmail

Follow all directions that were in the Introduction.

This works better in chatrooms than in Classifieds.

Note

You can use any picture pack. Just like always, make sure she is 18+. Preferably you would get one in which she looks younger but is really 18.

Go into a chatroom and say something like "17 year old looking for an older guy to talk to". You will get bombarded with replies. I would only focus on one person, but its up to you. Talk to him for a while. Be nice to him. Don't bring up anything about sex or pictures or money or anything. Leave the chatroom, but have him add you on MSN or email you.

Eventually he'll want to see you, so send him a CLOTHED picture. Ask him to send you one. Then tell him you trust him more, and tell him you didn't want to scare him off, but you're only 16. If he

freaks out and won't talk to you, move on to a new person. If he is okay with it, keep going.

You are going to Dox him.

How to Dox Your Pedo

Write down everything you learn about him. His age and location, his email address, everything. Talk to him for a few days via MSN/email, finding out everything you can about him. Now go to Facebook and search his email address, or his first and last name. Try and find him on Facebook using his email, name and location. If this is a success, your life will be a little bit easier.

Find out everything you can about him on Facebook. Any spouses, cousins, children, friends. Maybe even where he works.

Next go to <http://Pipl.com/>. Type in his First and Last names, and location if you have them. If not, try with his email.

If you can't find any info at this point, try selling him pictures. If you can't, block him and move on. A few days in, I'd be surprised if he didn't ask you for a nude. If he did, send it. If not, make him want one. Ask him for one of him if you have to. Without him willingly taking a naked picture of what he thinks is a minor, all of your work was pointless. If he does and you have a ton of info, success!

The Blackmail Letter

Email your pedo scaring him shitless.

Say something like

"Hello Mr. (Pedo's name). What you have been doing is illegal. You willingly took a picture of me, a minor. I have chat logs and screenshots. You will go to jail for a long, long time if I tell anyone. I bet (spouse's name) would be mad. What would the people at (workplace) think? That speeding ticket you got years ago (scaring him so he knows you know everything about him) would be meaningless compared to this. I expect a monetary compensation of (your choice) in my Paypal by (your choice of time). If you block me or stop communication with me, I will call the authorities to (Pedo's address here)."

Sound professional. Don't copy mine word-for-word. Make sure he knows you are serious. You could also try writing from the girl's father's point of view if you wanted to.

I am not responsible for anything you may get in trouble for because of my guide.

Very good high quality thread with instructions and tips on every aspect of e-whoring!

Would love to see you post some unsaturated chats though...

Stripe - September 18, 2011, 3:36 pm

If I were you I would add a detailed section about maintaining anonymity online for this. Not necessarily for small jobs but for the 1k and over. Some browsers for example, transmit local IP in the headers, regardless of your use of a proxy. If you don't feel this is E - Whore related, at least add some links to anonymous browsing.

Otherwise, great tutorial

You can't really get caught. Nothing will happen if you do get caught. Just in case though, simply hide behind a VPN. The worst thing that can happen is someone finding the files on your computer. The fastest I've made money? \$220 in a weekend. I'm sure there are people who have made more, though.

King_Cooper - November 30, 2011, 4:35 am

Haha, thanks. Its the funnest thing to do when you're done getting all your money, though. I don't do it for blackmail or to make money, I just like to mess with them. Tell them where they work, their bosses name, their address, phone number, wife's maiden name etc.

Pilatus - November 30, 2011, 6:49 am

Not a bad guide. In fact, it is one of the better i have seen in on HF. KIU!!

pia - November 30, 2011, 9:28 pm

just asking, is it really necessary to have vpn when doing e-whoring?
what vpn can you recommend?
is free vpn good enough?

King_Cooper - December 5, 2011, 6:00 am

A free VPN should be good enough. I use ProXPN. It is free. VPN's are recommended but not necessary. If you don't mind taking the risk that people could trace your IP, then it isn't necessary.

Paypal is VERY tricky! You need a Canadian paypal because you don't have to verify them to send money. Also, if you create another Paypal on the same computer as another limited Paypal, you are sure to get limited! You have to do things such as clearing cookies, flash cookies, etc. Change your IP, and never use a VPN!

To all others who posted: Thanks for the support! This guide needs to be kept alive! Stupid picture/vid packs are killing it.

From what a few people told me a while back that E-Whoring was bad. Well sure it seems like it, But Hell, I've made almost \$500 from this and I don't regret a single thing about it. Some people, such as these pedos are wrong filthy men that can't get a date, I might make a post later on with a dox of this one guy and our chat history/ money I've gotten from him. xD
