Understanding SBSettings

*What does SBSettings look like?:

[img]http://c0588112.cdn.cloudfiles.rackspacecloud.com/SBSettings%20iOS%204.png[/img]

*What is SBSettings:

- SBSettings is a jailbreak application that brings various toggle switches directly to iPhone's home screen that are available in the Settings app. SBSettings is also considered as a replacement for BossPref, which offered similar functions in iPhone firmware 1.x.

*Why get SBSettings?:

-SBSettings is a powerful tool. You can easily toggle settings through SBSettings.

*I WANT! SBSettings!:

-Just go into Cydia and search "Sbsettings", its from the BigBoss repo.
