Thread: [Post with 0 character..!!! Character limit not working..?](#)

supersurfer - September 13, 2011, 9:09 am

I saw a post that has no character.. so got surprised.. why the minimum character limit not working..

screenshot: [img]<http://i.minus.com/ibfj8XVZM1Z51e.png>[/img]

Post link: <https://hackforums.net/showthread.php?tid=1720245&pid=15662999#pid15662999>

but when we quote the post..we can read what is in the post..
and yes.. no formatting is used..

Cerebro - September 13, 2011, 9:10 am

I think he's using a special character to fool the system.

nop..just try quoting the post.. its a simple post.. he haven't used any formatting, color, font size etc.

Joey Tribbiani - September 13, 2011, 9:13 am

It's a sort of glitch in the quote system.

supersurfer - September 13, 2011, 9:13 am

oh.. my post above is also not showing.. i just quoted his post and pasted here..
btw.. which special character..i can't any except @

Look up unicode ?

Unicode allows you to insert extremely small spaces etc which count as charecters :P
