Thread: [Hacking @hotmail/live/windowslive msn's for 5-10 dollars.](#)

Notorious Mental - October 27, 2009, 5:30 am

I'm taking @hotmail/live/windowslive hacking requests.

I can find your lost msn's password too(If you have lost your password).

Charging 5-10 dollars,depends the e-mail and the person.

You can reach me at my msn which is:

Or you can PM me.

To be sure you won't get scammed,I'll login from the hacked msn and talk to you.

Or if you don't have msn,I can provide screenshots.

If you want me to hack more than 1 msn,the price will be the double.

I.E.You give me 2 msn's.So it is 10 dollars x2.So 20 dollars.Etc.

If I am offline and you can't reach me,PM Xenocide(He is a user here on Hackforums,he can help you).

If you have any other questions,feel free to ask below or pms.

Thank you,

Notorious Mental and Xenocide
