Guys, read the op.

It states, "Member for 3 months," and "150 posts."

I would be posting an application, but I don't have zero warning %, nor 3 months.

Well, thanks for this OP, and good luck to everyone.

Name: Steven

Age: 16

Country: England

Hobbies: Writing poetry, watching TV, taking my dogs for walks, listening to music.

Why are you deserving of an upgrade: Because I have contributed quite a bit to HF (I donate a lot to the habbo hotel section). I would consider myself as HQ, I have decent grammar and good spelling. I am a very friendly and polite member as I am a strong believer in equality and diversity and treat anyone the way they should be, regardless of who they are!

I try my very hardest to help anyone out who is in doubt, intending to lead them into the right direction, providing thorough information.

How and why did you join HF: A friend told me about HF as I was getting bored of old useless methods I used to use, I pretty much wanted to extend my knowledge and maybe share a little of mine too. I am a trusted member, if you check my rep I have never scammed or ripped anyone off. Also, I had already won a competition to win l33t and never got it, this was like 3-5 months or so ago, lolzor60 kept procrastinating and then just never contacted me again lol, bummer for me.

Who is your referee: Leeroy Jenkins

What can you offer the HF community quality wise:

I am someone you can talk to (I am a good listener) - I know this is hackforums but as you know, there are other sections here... so I'm good to vent feelings to. :-)

Anything else you would like to add: Thanks for the contest, very generous of you... good luck to all.

In all seriousness though, Stevo is a great member here at Hackforums. He continuously puts high quality posts in the Habbo Hotel section, which is needed. He's helped countless amounts of users with their troubles in that section, and has contributed much. He's a great listener, I've gone to him if I need to talk to him, or vent something and he's willing to help anyone. He's a great member, with a big heart, and I don't see why he shouldn't get this upgrade. High Quality member right here. I recommend you chose Stevo.

Vouch for my little butt buddy. I see some potential in him, with a leet upgrade or uber I can see him reaching the sky and kissing the hand of angles. I believe he can actually offer more than e-whore tutorials, I believe by seeing what he has in him he can offer tutorials on coding, e-whoring, money making, and so much more. On top of the he is in collage, so he is learning more and more each day making him eligible for even more input on the community.

He might seem like a noob, but we all start off that way and given a little push can make us achieve

even more than ever before. Anyways, I would like him to be an upgraded member among the rest as he does get picked on for being a regular member, not saying that should be a reason of which he should be chosen upon. Go through his posts, threads, and I'm sure you will see what I see in him. Thank you can I support this member.

I also feel like i can do so much more for other members such as upgrading contests such as you are, more support for all members with technical things such as computer support or whatsoever. I love to help other people other then myself. Its My Life!

I recommend EyeOfTheTiger, he is an upcoming member and i believe he will be a valuable asset to anyone he helps. He is both helpful and polite.
