Thread: [Does USB port 3.0 work still faster with a USB 2.0 drive](#)

H3's H3r3 - September 14, 2011, 2:23 pm

Does USB port 3.0 work still faster with a USB 2.0 drive compared to a USB 2.0 port and drive and visa versa does a USB 3.0 drive work faster with a USB 2.0 port than USB 2.0 port and drive.

Basically do you need USB 3.0 drive and port to be faster than USB 2.0

jamesgates1 - September 14, 2011, 2:46 pm

No as its hardware is up to scratch but software isnt, as the software (driver) does the computing.

You need everything in USB3.0, device, cable and port ;-)
