#1 iPaToXx way better, the render is not blurred, and layer blended.

Good Job. :D

Hey! I like better 1st. Hey iPaToXx! I like your style.. but your style is always the same!

Look at your sig, and what you made here. I also saw more pics from you. Try the "evolution" process.

Good luck! ^^

pOgon - September 16, 2011, 2:53 pm

Can we make it like this? Once one hits 15 votes is the winner.

Zeppination - September 16, 2011, 5:41 pm

Im gonna have to go with pOgon :) The other one dosnt really appeal to me.

Slot??h - September 17, 2011, 2:42 am

I'll say pOgon, though it was a hard choice. I liked both, but went for pOgon's one.

Stevo - September 17, 2011, 2:50 am

I chose #1, #2's render looks awful.

wag1 - September 17, 2011, 2:53 am

#1 the middle in #2 looks fooooked.

Flying Dutchman - September 17, 2011, 2:59 am

I've voted for iPaToXx, the whole picture matches and everything blends in fine.

POgon's render doesn't blend in, and there's too much white light in the middle.

St. Jiberish - September 17, 2011, 4:31 am

Truth, pOgon is a good friend, also I LOVE his style.

Mr Royal - September 18, 2011, 7:10 pm

This one was really close x3, I had to spend some time to figure out which to pick. Lol, iPaToXx is a tad better though, Good luck to both.

Metaphorical - September 29, 2011, 8:52 pm

iPaToXx is definately better. Use a better render next time, pOgon.

Uzi? - September 30, 2011, 9:04 am

I'd go with the first signature, the other one doesn't feature too much and the render is too small.

Spooderman - September 30, 2011, 9:21 am

I like the 1st one :P goodjob lol, the second pic got beaten :P

Mixer.hr - October 1, 2011, 5:59 am

First one is allot better in my opinion.

!stric_tags(\$userName) - October 1, 2011, 10:45 am

poGon's one looks better in my opinion.

Poseidon - October 1, 2011, 9:52 pm

both suck to be honest. #2 gmv though

HOLA - October 2, 2011, 7:32 am

I have to go with number 1, looks better than #2.

LegitStuffForSale - October 2, 2011, 9:23 am

Pato gmv...oh and pogon...when u slap on the fractal lights...(effects)... make sure you erase the sides of it man ;)..looks quiet bad actually...you've done it in couple of your tags...take your time ;)...and work on blending also ;)
