I agree, GUI isn't everything but it's what makes the difference. Outer image is sadly a huge decision maker. We are working on a new GUI though.

Kyle FYI™ - September 19, 2011, 11:15 pm

But we are working on a new GUI so its all good.

Impurity - September 20, 2011, 6:32 am

Expect a domain up in a few days, I'm also awake and selling so send me any questions!

Kyle FYI™ - September 22, 2011, 9:57 am

Not in a few days soon tho, because we need to wait for the name servers to set and all that, they my set for us but they my not set for the bots, so we will wait 1 week or so before we move all are stuff.

Impurity - September 23, 2011, 5:13 am

I'm awake and selling, feel free to contact me with any questions you might have.

Kyle FYI™ - September 23, 2011, 5:45 am

Burdman - September 23, 2011, 3:53 pm

And what happens after AV's won't let bots download a file since it is tagged...Are you going to have a system which uses free domains like .co.cc or something?

Impurity - September 24, 2011, 4:56 am

Yes, we will replace domains once they are black listed.

PhuongBum - September 24, 2011, 5:58 am

Hope you will have a option that we can replace the old file with a new one.

Impurity - September 24, 2011, 6:01 am

I'll have Kyle start working on that right away!

Kyle FYI™ - September 29, 2011, 12:35 am

We will don't worry, when we start to get more people we will buy/get 10 + domains when there tagged 10+ more ect...

brandon1982 - September 29, 2011, 1:05 am

Just a question for whats good?

I mean u can find many uploader like multiupload, mega.... etc. and all are free!

or here I can upload my virus without fud crypted and I get a link or...?

can somone explain mee...?

Impurity - September 29, 2011, 6:20 am

This is direct link hosting. There is no advertisements, there is no "Wait 5 seconds to download", it's a direct link to your file which is useful when updating servers on botnets and RAT's.

Sir Cyrano - October 8, 2011, 10:10 am

Vouch, legit up-loader and legit user.

Impurity - October 8, 2011, 10:19 am

Thanks guys I apprecaite it!

@2Fail4You - If you want to do an installs partnership or anything like that, lemme know. Looking forward to doing business with you.

Mr.Cube - October 14, 2011, 4:02 pm

I chose this over dropbox! This hosting makes me feel better about my files security.

Impurity - October 14, 2011, 4:35 pm

That's what we aim for Window <3 Glad you like it.

UnNamedHacker - November 9, 2011, 3:29 pm

Question :

For example i upload my server that has its extension spoofed.

Will the extension change like server.png.exe?

Impurity - November 9, 2011, 5:49 pm

No, it keeps the extension. Direct link of course :)
