Thread: [??Genesis Premium VB.net Custom Theme | 100% Customizable | \\$20??](#)

?eumonic - September 17, 2011, 8:05 pm

Well, I finally got back to my computer and I figured that I am done pre-selling the theme. So I figured it was time to sell. So without further adieu, I give you Genesis!

[img]http://lexingtondevelopment.com/virtuous/uploads/genesisLogo.png[/img]

[img]http://lexingtondevelopment.com/virtuous/uploads/genesisOverview.png[/img]

Genesis, in a nutshell, is exactly as the title states. Elegance, simplicity, and professionalism. It is designed to fit any type of application universally, and to look amazing while doing it. Every aspect of this theme was designed around the concept of professionalism.

[img]http://lexingtondevelopment.com/virtuous/uploads/genesisFeatures.png[/img]

Genesis, being the most complete theme on HackForums to date, comes with more customized controls than anything else on the HF market.

Every control is completely color customizable and can look good no matter what color you use for each control.

Genesis includes the following:Genesis Theme

Genesis Button

Genesis TopButton

Genesis CheckBox

Genesis TextBox

Genesis GroupBox

Genesis TabControl

Genesis ComboBox

Purchasing Genesis is done the same way my first theme was done. I attempted to use Auto-Buy for the second theme release, but a user attempted to exploit my auto-buy. You can purchase Genesis by clicking the button below.

Mega Vouch For xZ3ROx, Hes a good friend and a legit seller.

This is also probably the most professional looking thread ever.

Dex - September 17, 2011, 8:13 pm

Huge vouch right here for Z3RO, legit coder and very sexy theme creator. I love the theme man, GLWS.

Addition - September 17, 2011, 10:30 pm

Huge Vouch for Z3RO, We've been best buds on MSN and this is THE best thread layout/design i have ever seen. Good luck with selling this AMAZING theme!

???? - September 17, 2011, 11:04 pm

vouch, theme is awesome.

Wish i could get a vouch copy, aint happenen lol flat broke aswell..

Good luck on sales!

Sorry, but vouch copies for themes really aren't necessary. ?

And save up some money! \$20 isn't hard to come by, and it is definitely worth it.

Patrickbizzle - September 18, 2011, 1:49 pm

Vouch for Zero and this theme, Its amazing. Hes always coming out with amazing themes!

Raidan - September 18, 2011, 4:31 pm

Finally I can post!

Huge Vouch for Z3RO! Hope you get a lot of sales!

Variable - September 18, 2011, 6:22 pm

Wow this looks amazing! A very professional looking theme, props Z3RO!

?eumonic - September 18, 2011, 6:53 pm

Thanks for the vouches you guys! Hopefully I can get a couple sales.

Source Code - September 18, 2011, 7:16 pm

Wow. The theme looks pretty sick. Good luck.

?eumonic - September 20, 2011, 10:54 pm

I am glad everyone is liking the theme!

I plan on getting a ListView working soon, so look for that.

Those of you who purchased Genesis, when I release the update,
PM me your PayPal transaction ID and I will send you the update.

GREENEXXX - September 21, 2011, 11:15 pm

This shit is smexi, and the time he has spent coding this and the price is only \$20!! this is unbelievable

anywhere, this is a sexi theme its a must have<3 it attracts costumers if this is on you're (CRYPTER,BOOTER etc)..

Vouch for this hoe..

Ace of Spades - September 22, 2011, 5:51 pm

Just bought it plan to use it in my upcoming Keylogger,

Rating - 10/10 : Flawless theme, another beautiful piece of work from Z3RO :]

I am glad you like it! If you are really interested in it, save up the \$20 and buy it. It is a great deal for what you are getting. Especially with an update coming out soon.

asillychilly - September 24, 2011, 6:39 pm

I'd buy this off you, but the thing is the last theme I bought from you didn't work for me; not even once, and I'm yet to recieve any type of support for it.

Care to explain what your problem was? I never received any sort of PM for any error you encountered. Sorry that you are unsatisfied with a previous release, but there is no need for any kind of harsh feelings towards my new releases.

That's odd cause I had asked xZ3ROxPROJ3CTx to help me with a theme and it wasent even his product and he helped me nd fixed it pretty fast...

So prolly he didnt get an PM...^

Prince of Persia - September 24, 2011, 11:12 pm

Could you make this work with C#? If so I may be interested in purchasing.

It works in C# as well. I am selling both versions.

It's only natural that I show such harsh feelings towards your new releases, as I except the same outcome to occur.

And yeah you did recieve my PM, you responded; then when I asked for help you stopped PMing me back

Again, after that response, no PMs were received. I never got any PMs.

Then do so, but if you do need help, add me on MSN and I will do my best to help you. There is a reason I stopped relying on the HF PM system.

I'm interested, but I need to know if it is resizeable.

If you don't know what I mean, then you can look at the free ones by the A guy on the forums. When you drag the theme, the GUI is no longer resizeable.

Can you PM me if it is a yes along with payment details.

The theme is resizable, but it is done a certain way. It is easy to do and you easily make it second nature, but it is not as simple as using no form. As for the PM, I am going to ask that you click the 'Buy Now' button on the thread so that I can keep it in my records.

Is it a hassle? I don't want another way which will be a hassle for me to edit in the future after creating the first version.

Resizing really isn't a hassle at all. I am sure you will find it rather simple.

Let me know if you need any questions.
