Thread: [\[Video HD Tut\]File Splitting \[Used in RATs to send pictures\]](#)

**Coding4Noobs** - September 19, 2011, 4:55 pm

[Video: <http://www.youtube.com/watch?v=DZHn0nUpqSE>]

more tuts at [c4noobs.blogspot.com](http://c4noobs.blogspot.com)

this will help you noobs with file splitting for your RATs :P or skid anti viruses...

**Coding4Noobs** - September 19, 2011, 4:59 pm

what are you talking about, this has nothing to do with EOF o.O this has to do with looping thru a file and splitting it into bytes so you can send it via Sockets...

**N3bco** - September 19, 2011, 5:02 pm

So when the client end of the rat receives the string, it just parses out the buffer and concats it together?

**Coding4Noobs** - September 19, 2011, 5:06 pm

no, server side, you would do something like this....

```
Dim HoldBytes as string
Sub Recieve(byval data as string)
HoldBytes & = data
end sub
```

when you get all the bytes then, `system.encoding.default.GetBytes(holdbytes)` = your images in byte format, so use a memory stream to open it

Thanks Coding4Noobs I was trying to do something like this for awhile.

no problem, ill be teaching this again later, with more details for when sendin a file via sockets when i get there with my socket tuts, lol ive just been to busy to do a full tut of sendin files cause of rugby so i made this half ass one...

**N3bco** - September 19, 2011, 5:38 pm

I'm waiting for your tut as I can't get this working for some reason...

**Coding4Noobs** - September 19, 2011, 5:43 pm

its cause i never showed you how to make a use a tcp listener to accept clients... ill be doing that in the next video... just need some time, all my time is being spent on Rugby, School, Paradox DDoSeR, Pradox RAT, black trinity, then tuts...

**N3bco** - *September 19, 2011, 8:01 pm*

No i mean the connection is good, your code is working but only some of the file is being sent. For instance if i send a text file its cut out halfway through?

**Coding4Noobs** - *September 20, 2011, 2:47 pm*

hmm... add a delay so it gives time to parse and convert.
