The first one kills all the others, but the second is damn good as well.

Not really feeling the 3rd one. :/

I gave my vote to Tachyon. I like the blend of colors with less contrast. Although, Legitstuff.. isn't bad either... Good luck to all!

The middle one, the third one is nice but i dont really like the 1st 1

vincentbelkin - September 26, 2011, 12:14 pm

The first one is a pretty sweet signature.

I like the second one, it has a nice background, which weather intentional or not matches up with the picture so it looks like hes shooting a galaxy out of his gun to me. Imo its pretty cool. First one is nice as well, but I prefer 2.

If I could vote, #1 would be my definite choice.

Uzi? - September 30, 2011, 9:03 am

The second one is blended perfectly, the others have an image render placed on a different coloured background.
