What's HolyHub?

HolyHub is the site where you can share content that you've created! This means content like; websites, php creations, html and games! Me (Daniel W.) personally created the domain thinking of something different then I sat down and thought of something that'll help/promote everyone.. Then "HolyHub" appeared!

Interested in helping us?

At the moment HolyHub is not in need of staff members because we're a newly opened site and we don't need support as of now, you can help in the most simplest of ways, from registering or EVEN just visiting our site.

Are you ranked on Google?

Yes, we're currently ranked two(2) on Google if you search; "HolyHub" or "Holy Hub", this domain is original and not many people use domains like this, that's why we're so high on the rankings!

Y U NO ALLOWED TO DONATE?

You can donate by clicking [HERE](#) and sending me a personal message with the title "I want to donate" and you'll be contacted within 24 hours with information on how to donate! At the moment we don't have an auto-mated service so please be patient!

Y SHOULD I DONATE?

I(Daniel W.) think you should donate because we need your support for better hosting and even better content! If you donate we get money to save up to buy a better hosting(we're currently on a free hosting) and we can buy someone to make us a custom theme.

Y SHOULD I REGISTER?

You should register because we're a friendly community, now I'm not going to lie and say we have no rules, we do! And we follow them highly, you can view our rules [HERE](#).

Notice: I know I'm doing "Y" instead of WHY, no I'm not a retard... :)

Thanks for reading!

Well, since I'm new to MyBB theme design I won't even try to "modify" it, but It'll have to do for now!
