As Nicemate said be cautious, the script could contain a backdoor, I'd recommend someone who's good with PHP to check it over.

Found a few linking out to a few anon IP's !! WTF?

@OP do you need a bash ? ?

pandagravy - November 2, 2011, 1:57 pm

Aww, thats lame. I actually got excited there for a second....

Hey, could someone good at PHP get rid of the backdoors and then repost it? That would be awesome.

Akshay2598 - November 2, 2011, 4:27 pm

i got excited too :(but it looks like its not trustable
