Hello this is a simple tutorial to get other persons mail in your gmail.
without getting caught.
this only works if you have his or her psw without a trojan.
for newbies i think ? ? _____

- 1# Go to gmail.com
- 2# Log in to your cloak gmail account.
- 3# Click in right above corner on the option wheel.
- 4# Click on tab "Account and Import"
- 5# Click on bottom on "pop3 account"
- 6# Now you can paste and copy the e-mail adress(Hotmail/Gmail) in the adress bar.
- 7# Next step and fill in the psw,if you get a green light you passed.
- 8# If you get the tap do ya whant to send mail with this click "No"
- 9# Next step fill in name "u can use all names for this one"
- 10# Now you can choose between gmail or hotmail,it must b gmail.
- 11# no you get an e-mail that's your listening account is ready click on the code and use serial code log in to the hacked account and do the same overthere and verify.
- 12# hacked into the email account you do the same(Step 11#), throw it away after the mail and the fill in of the serial code in or hotmail/gmail is ready) and make sure they mail in the trash you throw away too.
- 13#Log out 2 the hacked account.
- 14# Label this persons e-mail's.
- 15# And your ready to go read his e-mail.
- 16# There's a maximum of 1 person per mail account.
