VB.Net For Dummies

This is an application i made to help people to learn Visual Basic/VB.NET
Screenshots:

[img]http://screensnapr.com/e/zrriiT.png[/img]

As you can see, this is all it has guides on so far, but I'm sure i will add more in the future. It's pretty simple with a nice GUI

Virus Scan:

[size=5]jdk why it says its 1/44. It's by SuperAntiSpyware, so maybe False-Positive. If i can get some vouchers or people that validate its a false-positive please do so.[/size]

[Click Here for VirusTotal Scan](#)

Download:

[Click Here to Download](#)

[size=6][size=5]Please give me feedback on it and tell me what i should add or maybe that it's not working for you. Anything will be appreciated![/size][size=5]

Vouches:

(Sep 23, 2011 07:19 PM)^^^ Wrote: [\[CITE\]](#) Thanks and vouch for this program. It has no viruses, nice GUI, and nice tutorials/guides. Hope you make some more in the future :P (Sep 24, 2011 08:42 AM)Rogue Asasino Wrote: [\[CITE\]](#) Very helpful, thank you for the program :) (Sep 23, 2011 06:00 PM)^^^ Wrote: [\[CITE\]](#) Thanks for making this, I'm looking to learn VB.net and this helps me out. Hopefully it'll get bigger with more guides, keep at it!

And would <http://pastebin.com/9w4UTiq1> be the theme you used? (Sep 24, 2011 07:15 AM)
?D??t?™ Wrote: [\[CITE\]](#) Nice works op . Thanks for this ?

Bentley - September 23, 2011, 6:00 pm

Thanks for making this, I'm looking to learn VB.net and this helps me out. Hopefully it'll get bigger with more guides, keep at it!

And would <http://pastebin.com/9w4UTiq1> be the theme you used?

no i didnt use that theme... sorry. i used another but i dont remember which one i used... lol i still have code. just dont know name

????? - September 23, 2011, 6:06 pm

what theme is that? can you give me it? I like it a lot!

Bentley - September 23, 2011, 6:07 pm

(Sep 23, 2011 06:05 PM)rocknhockeyfan Wrote: [\[CITE\]](#) no i didnt use that theme... sorry. i used another but i dont remember which one i used... lol i still have code. just dont know name
Oh, could I have the code for the one you used? I love the theme you used.

?Mephobia - September 23, 2011, 6:11 pm

ok i sent u guys a pm with the dll link to the theme. Hope you guys like the guide and like the theme!

Bentley - September 23, 2011, 7:19 pm

Thanks and vouch for this program. It has no viruses, nice GUI, and nice tutorials/guides. Hope you make some more in the future :P

?Mephobia - September 23, 2011, 7:30 pm

yeah. thanks ^^, can you recommend me something to add to the program? i need some ideas in order to improve it

ok, so i just added in a tutorial on how to do text to speech, and how to make a splash screen...

infomiho - September 23, 2011, 10:39 pm

Wow, this will help many, love the approach.

But my largest interest is in the theme, it's so damn good :3

May I have it ?

?Mephobia - September 24, 2011, 6:45 am

The theme is called 'Classic' for those of you that dont know... and if you dont know how to add themes... this tool will help you

D??t? - September 24, 2011, 7:15 am

Nice works op . Thanks for this ?

Banks? - September 24, 2011, 7:17 am

Whether or not the program is free, credits are always needed.

D??t? - September 24, 2011, 7:20 am

(Sep 24, 2011 07:17 AM)?anksy Wrote: [\[CITE\]](#) Whether or not the program is free, credits are always needed.

I am actually hate those guys who cares way too much about credits ?

Edited: Credit only will view the programmer . Users never see about form .

xMadnez - September 24, 2011, 7:26 am

im not a begginer but this will be helpful anywayz thx ur a post hq threads

?Mephobia - September 24, 2011, 7:28 am

(Sep 24, 2011 07:26 AM)xMadnez Wrote: [\[CITE\]](#) im not a begginer but this will be helpful anywayz thx ur a post hq threads

im going to be adding, not so beginner tutorials soon to it... like the code may be simple, but the understanding may be harder... so ill add how to click webrowsers without IDs and stuff like that

Banks? - September 24, 2011, 7:30 am

How would you like it if you released something for everybody, and then everyone just leeched it, and didn't even acknowledge that you made it?

?Mephobia - September 24, 2011, 7:34 am

(Sep 24, 2011 07:30 AM)?anksy Wrote: [\[CITE\]](#) How would you like it if you released something for everybody, and then everyone just leeched it, and didn't even acknowledge that you made it?

guys this is not an argument thread... i added credits for the theme. No big deal... Also i made the actual program, so imma make credits for myself :)

Penthos - September 24, 2011, 7:43 am

Hay Rocknhockeyfan,

Although i will not use or need this, I just wanted to say gratz for release for all the new members, And its great your putting your new skills to good use for others.

Nice work Keep it up :P

?Mephobia - September 24, 2011, 7:54 am

Thanks for vouch! yeah imma try to keep adding more things to it. maybe an auto updater for people who dont wanna keep visiting the thread or maybe even a tutorial on how to auto update idk

OK i just finished adding a tutorial on how to use Subs and, how to get a websites source! I'm not going to update the link however until probably later tonight because i wanna see if i can get more tutorials on it

[Eprouvez] - September 24, 2011, 8:31 am

Thanks for putting my name in the credits :)

For those who are looking for the theme, here it is:

<https://hackforums.net/showthread.php?tid=1732637>

HaXoR- - September 24, 2011, 8:32 am

Try to make your program little bit more secure because your program source can be easily leeches. Even using Reflector :O!

Regards,
HaXoR-

?Mephobia - September 24, 2011, 8:36 am

(Sep 24, 2011 08:32 AM)HaXoR- Wrote: [\[CITE\]](#) Try to make your program little bit more secure because your program source can be easily leeches. Even using Reflector :O!

Regards,
HaXoR-
ill obfuscate it when im done... but im not gonna do yet. maybe tonight when i upload the latest/newest version

Modestep - September 24, 2011, 8:36 am

(Sep 24, 2011 08:32 AM)HaXoR- Wrote: [\[CITE\]](#) Try to make your program little bit more secure because your program source can be easily leeches. Even using Reflector :O!

Regards,
HaXoR-So what? He is trying to help people, he isnt selling stuff. At OP, good job.

?Mephobia - September 24, 2011, 8:39 am

(Sep 24, 2011 08:36 AM)Modestep Wrote: [\[CITE\]](#) So what? He is trying to help people, he isnt selling stuff. At OP, good job.

that is true, but i mean this project is already 1/44 for some freakin reason lol.. idk why, so if i obfuscate it will stay at 1/44 so it wont do any harm. ill think about it

HaXoR- - September 24, 2011, 8:39 am

(Sep 24, 2011 08:36 AM)Modestep Wrote: [\[CITE\]](#) So what? He is trying to help people, he isnt selling stuff. At OP, good job.

Dear Modestep, I was trying to help him so he could know that his program can be leeches. That's all. Thank you. :)

Regards,
HaXoR-

Rogue Asasino - September 24, 2011, 8:42 am

Very helpful, thank you for the program :)

?Mephobia - September 24, 2011, 8:46 am

i mean it is free... so it can be leeches as long as u give credits... but the code isnt very complicated so obfuscating would not rly do much, but i guess i could help a little

Submariner - September 24, 2011, 8:51 am

Thats great , keep it up :)

I would love to see more version coming up soon as possible

nirmal7 - September 24, 2011, 9:28 am

ok i first thought it as a ebook but it came as an application.by the way thanks for the effort.

?Mephobia - September 24, 2011, 9:33 am

i think ebook r less organized... and i like the buttons think. and it looks cooler and slicker as an application instead of an ebook

Submariner - September 24, 2011, 9:38 am

Yea and you also got samples there like message box or text to speech thats cool :P

?Mephobia - September 24, 2011, 9:39 am

(Sep 24, 2011 09:38 AM)Cyb3rSnake Wrote: [\[CITE\]](#) Yea and you also got samples there like message box or text to speech thats cool :P

yeah i added samples/demos for the newer ones... well the other ones didnt rly need demos. but from now on, imma try to put demos and stuff on each tutorial

Submariner - September 24, 2011, 9:42 am

You could also add ebook downloads or stuff like that , video tutorials etc..

Make it more advanced , its could be great project (its already great project) :)

?Mephobia - September 24, 2011, 9:44 am

hah thanks. thats a good idea. but ebook would eliminate the need to use the application, unless its an ebook on like.. i dont even know. what would the ebook be

Penthos - September 24, 2011, 9:46 am

(Sep 24, 2011 09:42 AM)Cyb3rSnake Wrote: [\[CITE\]](#) You could also add ebook downloads or stuff like that , video tutorials etc..

Agreed its one of the more original project i have seen in a while, also it help a LOT of people out, this is a real cool project bro, i hope you keep developing it further ^.^

?Mephobia - September 24, 2011, 9:47 am

yeah. all of a sudden the idea came to me! i was like "why dont i make a vb.net guide with a vb.net application! A LIGHT BULB POPPED UP TOO. i swear.

Fortune™ - September 24, 2011, 9:54 am

Thanks for sharing! Looks useful!

-Can i have the theme please :D

?Mephobia - September 24, 2011, 10:26 am

yo welcome. more updates to come! maybe even an auto updater! so be sure to look for that

Bentley - September 24, 2011, 11:54 am

Norton blocked it now, I had to allow the program to open.

What's causing it to do that? :o

Edit: Also.. when I try to use the theme this happens:

This [\(Click to View\)](#)

[img]http://img7.imageshack.us/img7/7266/9be80a980fe54b1d8204f9d.png[/img]

?Mephobia - September 24, 2011, 12:20 pm

once u add it u have to go to your toolbox and scroll to the top and there u will see the theme... should be at very top. and norton blocked it cause for some odd reason it has 1 detection. idk why. but it does. but as u can see its not actually a virus just updated! now it has an auto updater and 2 more tutorials!

EliteEnderman - September 24, 2011, 8:51 pm

THANKS SO MUCH,

not that i needed this, but still very nice!! for new coderzz

P.S. i love the new update, and you has huge dick ^_6

Steam Powered - September 24, 2011, 9:38 pm

VB for dummies? When i learned vb it took me like 2 minutes to understand how to properly code in it. It really isn't that difficult, but i guess if someone where to just enter the computer world it could be helpful.

?Mephobia - September 24, 2011, 11:01 pm

lol its harder than u think for most people to learn vb. although its the easiest to learn, it still could be hard... and i will continue to add more advanced tutorials to this project, so it would be for higher levels too

ihasdevkit - September 24, 2011, 11:06 pm

Thanks :)

You should make two sections.

Basic | advance

magiC* - September 25, 2011, 6:53 am

Yeah Im waiting for advanced section, very good work :)

?Mephobia - September 25, 2011, 7:21 am

maybe next update ill divide all of the tutorials into 3 sections. Simple, Moderate, and Advanced. Or just Easy, Medium, Hard

Tedd - November 13, 2011, 5:57 pm

Looks pretty good man! I like the GUI as well, keep it up!

?Mephobia - January 10, 2012, 8:09 pm

(Nov 13, 2011 06:57 PM)Tedd Wrote: [\[CITE\]](#) Looks pretty good man! I like the GUI as well, keep it up!

thanks! i want some more support so i can continue... please post if you want me to continue

FaberGeyo - January 11, 2012, 3:03 am

Thanks for this, Really helped me out! :)
