Ougos offers You free traffic + clicks, for just viewing other webpages with their browser. This traffic is 100% BT/Adsense free, because it has no refferal source (BT), and all vists are like from REAL browser, from REAL people (Adsense). Don't say that Ougos is not safe, if You are using other autosurfs which not hidden traffic source.

Okay now. To get only visits, instead of visits + clicks, You need to make Your BT ads like this:

[\[img\]http://k.minus.com/jbmTWH55aBqGAB.PNG\[/img\]](http://k.minus.com/jbmTWH55aBqGAB.PNG)

Then enter Your keywords etc. as usually and GENERATE NEW PIN.

After That, make sure You have some white space on Your website/blog, and insert Your ad there.

Now when You visits Your website with Ougos, there will be no clicks, because people can't see them!

Now just enjoy Your free traffic, earning and spending credits.

Whenever You want someone to click Your ads, tell him to click in right place, that's all :)

they know about Ougos overall, but they don't know how to get only TRAFFIC instead TRAFFIC + CLICKS (which ruins CTR sometimes)

Bidtraffic detects OUGOS, your CTR will raise and you will be banned

PS: i already tested ougos on my bidtraffic account and my account was banned

Ougos TRAFFIC is safe. I made this topic to show how to DECREASE CTR, pure traffic won't raise it lol.

Stop BS

OUGOS is NOT safe for BT! BT sees the same browser on all traffic. Believe me, I know!
