I was selling him 400 Youtube accounts for him to use in his bot, he said for me to go 1st so I did, as he is an UB3R. I sent the accounts to him. They were in a txt document of a total of 900 accounts and 426 working ones (he asked for 400 accounts and thats how many working acc there are.) I held up my side of the deal but of course he doesn't do his side of the deal by sending me the money.

DID I NOT GIVE HIM WHAT HE WAS PAYING FOR? HE WAS PAYING FOR 400 YOUTUBE ACCOUNTS AND I SENT THEM TO HIM!
