Selling Steam account with Crysis 2 and Portal 2, it is a legit account, not cracked.

Price: \$30 (Normal price would be around \$80 total)

I am not going first, unless you are trusted, and have no open scam reports.

Payment will be paypal only as gift with message "Thanks for the virtual item, it works great!"

I will give you account info, all pins for account detail changes.

Well, I'm not going first. And I don't know any good middle mans.

EDIT: Decided I'll go first to trusted people.

If you allow me to send it not as a gift and as payment for goods, I'm interested. But I'm not sending shit as gifts.
