Thread: [SHADYSHOSTING - SSD - 25% OFF - BUKKIT,TEKKIT,FTB & MORE! - 4\\$ / 512MB - EU&USA](#)

djfs shady - September 27, 2011, 12:30 pm

For the first 5 users to order from hackforums we will give you double the ram you order for the remainder of your service with us!

Free web hosting on request, submit a support ticket once ordered.

Custom plans are available to order here: <http://shadyshosting.com/billing/cart.php?gid=45>

[\[img\]http://shadyshosting.com/images/thread.png\[/img\]](http://shadyshosting.com/images/thread.png)

Re-Boot+ - September 27, 2011, 1:04 pm

Very nice thread, I have my own server atm but good luck with sales :D

Aeonian. - September 27, 2011, 1:31 pm

I vouch for shadyshosting, have my own server hosted on there and works like a charm!

-SILENT- - September 27, 2011, 1:45 pm

I have already got a quote for a server but this is the same price for a gig more so have you got a test ip for the 2gb package?

KoolKidsloveKoolAid - September 27, 2011, 3:12 pm

Up on shared hosting...Really bad security risk.

djfs shady - September 27, 2011, 3:15 pm

What are you going on about koolkidslovekoolaid?

bythetime1 - September 27, 2011, 3:41 pm

I have a server with shady...

I cant say anything bad about it! We never lag and are running a good 20 plugins. I have the 8 player one and its perfect for me and my friends!!

Thanks to shady!

Mulle - September 28, 2011, 12:32 am

That's really really cheap !

I'll maybe buy one soon ^^'.

SIM-914155 - September 28, 2011, 2:35 am

Finally, you've restocked. Expect payment soon.

djfs shady - September 28, 2011, 7:44 am

Hehe we only restocked on beginner as we had spots left, will most likely be purchasing some new dedicated servers in the coming months.

FearMe? - September 28, 2011, 7:50 am

Vouch for shadyshosting, I've been using it for a while now.

Had my 32-slot server and now a 8 slot server for me and some friends.

No lag, pretty good service.

djfs shady - October 1, 2011, 5:18 am

Restocked once more on the intermediate servers.

WetRain - October 1, 2011, 9:41 am

Huge Vouch for Shady. Awesome guy, really funny, and above all trustworthy.

KoolDude87 - October 1, 2011, 10:36 am

I don't know about this. This seems kinda shady if you ask me :p lol jk

djfs shady - October 1, 2011, 10:58 am

i've heard that joke many times lol :P

djfs shady - October 4, 2011, 7:51 am

We have restocked on BOTH beginner and intermediate servers!

Maokai - October 4, 2011, 9:42 am

Vocuh for shady, a friend of mine has his server hosted there and no lag at all. The best service out there.

djfs shady - October 4, 2011, 10:48 am

Thank you for your comment lovelypurple :) im glad you think that of us :)

iamOnline - October 4, 2011, 11:31 am

I recommend shady'shosting, Used them for a little while and enjoyed there service, good work and all users the price is 100% worth the service!

djfs shady - October 4, 2011, 11:45 am

Thank you Eve, I'm glad you like our services.

Moodkipz - October 4, 2011, 3:59 pm

Good luck "selling ur servers!!" hopefully u can go for a while

djfs shady - October 5, 2011, 7:50 am

Thank you moodkipz we sell out pretty quick its in high demand :)

Dot. - October 5, 2011, 8:12 am

Vouch for my man Shady!

I've done alot of things with him, never tried to screw me over or alike.

100% trustable.

ShellShock - October 5, 2011, 10:42 am

Vouch for ShadyHosting, I've had a server with them for a while and they're great :D I would

definitely recommend them :)

Eminem™ - October 5, 2011, 9:07 pm

Looks pretty good, nice prices too.

djفشady - October 8, 2011, 4:15 pm

Thanks marcus :) we try to keep our prices not too cheap and not too overpriced just enough to cover server costs is fine with me :)

?ully - October 8, 2011, 5:35 pm

I want to buy a 4GB server, but it's ALWAYS out of stock when I try to buy :(

djفشady - October 9, 2011, 1:37 am

They go quickly yoshi we only have a few beginner and intermediate left i believe.

one1one - October 9, 2011, 3:09 am

Thank I brought this service big vouch and also one of the cheapest I could find.

?Cloud - October 9, 2011, 11:50 am

I would buy this but unfortunately you can only pay with an online payment method, although I don't trust those. If I could buy with a credit card then I'd buy it :(

djفشady - October 11, 2011, 10:45 pm

New Promotional Code: MC15 = 15% off any mine craft server on any payment term.

ShellShock - October 12, 2011, 1:47 pm

At the prices offered, people shouldn't even need a discount, \$3 for a Minecraft server is an amazing price :D They're great servers too, no lag, always up. At \$3 for 8 people, there are no reasons why you shouldn't buy from Shady'sHosting :D

?ully - October 12, 2011, 3:31 pm

When will the 4GB package be back in stock? I want that one... :')

djفشady - October 13, 2011, 12:37 am

goes quick yoshi especially with the discount haha. ill pm you when one is available.

djفشady - October 27, 2011, 2:56 pm

Servers have been restocked again Get them while there here!

P?ris?m - October 27, 2011, 4:08 pm

How fast are the lines? I'm considering.

djفشady - October 28, 2011, 4:42 am

We are on a 1gbit line, it also says that on the first page :)

Utilize - October 28, 2011, 12:21 pm

Just bought a beginner server, No Lag AT all, Vouch.

djفشady - December 14, 2011, 1:44 pm

we have restocked on minecraft servers:

Beginner craft: 3 available
intermediate craft: 2 available

Get yours now!

djfs shady - December 19, 2011, 12:07 pm

2 Beginner craft servers left!! Get them before they're gone!

djfs shady - December 22, 2011, 8:56 am

We now accept OneBip payments, Pay using your mobile phone now!

djfs shady - January 6, 2012, 2:56 pm

We have restocked on all our services order yours before they're gone!

Dot. - January 6, 2012, 3:13 pm

Legit user, legit hosting.

I vouch for you, you shady f00k.

John. - January 6, 2012, 5:24 pm

Vouch for Shadys mah brah, these are some pretty sick ass servers.

djfs shady - February 2, 2012, 2:29 pm

Get 50% OFF all our services! Ranging from webhosting and virtual private servers to our popular minecraft server solutions!

Use coupon code: 50%OFF at the checkout for a recurring discount of 50% on all services purchased from us!!

FearMe? - February 2, 2012, 2:48 pm

Yeah, this is legit. Used to have a small 8-slot server hosted by them, worked like a charm. Only thing was that it couldn't handle a lot of TNT as it was only allocated .5 GB.

djfs shady - February 2, 2012, 3:22 pm

We upgraded our network over last week to a better, stronger network :) you should come try us out again using the coupon above to save some \$\$

Aspolale - February 12, 2012, 5:07 am

Your website and minecraft servers are down :L mind fixing this as I cannot go on my server atall.

LaggyShitMC - February 12, 2012, 8:41 am

Bro, the server is down. I'd love to buy a small server for me and my friends.

djfs shady - February 12, 2012, 9:01 am

Our datacenter is having issues i believe i am still awaiting them to reply to my email, and I'm pretty pissed of myself as this happend without any given notice to me.

? Overc?de ?. - February 12, 2012, 9:22 am

Good luck with your business, looks pretty nice:)

Aspolale - February 12, 2012, 10:18 am

Alright no probs :) just hope it's up again soon , wanna play haha.

Haste. - February 21, 2012, 7:07 pm

Any idea when the hosing is going to be back up? I just got charged for the month, and there's no

server to pay for!

djfhshady - February 22, 2012, 8:10 am

The billing system still does its cycle, don't pay for the bill (unless you are on the usa network that is up and running fine) the european network is currently being sorted, i am in the process of reuploading about 60gb worth of data onto the server so this is the only thing stopping it from being back online.

Haste. - February 22, 2012, 12:59 pm

(Feb 22, 2012 09:10 AM)djfhshady Wrote: [\[CITE\]](#) The billing system still does its cycle, don't pay for the bill (unless you are on the usa network that is up and running fine) the european network is currently being sorted, i am in the process of reuploading about 60gb worth of data onto the server so this is the only thing stopping it from being back online.

How long do you think that will take? I have a mob of angry server members on my site >.<

Utilize - February 22, 2012, 1:39 pm

Is the onebip payment double the cost? or is it still the same?

djfhshady - February 22, 2012, 1:43 pm

Onebip is the same cost, and i can't give you an exact time scale on when the backup will be uploaded as it keeps changing from 2 days to 10 hours etc, i suspect with my connection it should take roughly 12-24 hours.

Utilize - February 22, 2012, 1:48 pm

Ah, I used to have an 8 slot server with you and it was great, is there any chance I could pay for 2 months of an intermediate server in one go, rather than buying one month, and then another month after the first month is finished. Incase I run out of mobile credit

djfhshady - February 22, 2012, 2:03 pm

You can pay monthly,quarterly,semi annually or annually (1 month, 3 month, 6 month, 12 month)

Utilize - February 22, 2012, 2:09 pm

ah, I'll save my phone credit then so I can pay for the next month, I'm going to buy an intermediate server as soon as the backup is done.

Haste. - February 24, 2012, 12:10 pm

Looks like there almost done putting the servers back up! Thanks shady!

djfhshady - February 24, 2012, 3:20 pm

No problem we are working as best as we can, i can no doubt guarantee i will awake tomorrow with about 10000 support tickets asking the same question on why its down :L yay me xD, we are currently allocating services back to clients now this will take awhile since we have alot and their is no automatic way to do this so i have to do it manually :(wish me luck haha.

Utilize - February 24, 2012, 4:09 pm

There's no servers available to buy :(I was hoping to buy one.

djfhshady - February 25, 2012, 12:46 am

There is no server to buy because im still sorting out current servers adding them to peoples accounts etc so once that i done i will be adding some servers.

? Overc?de ?. - February 25, 2012, 12:53 am

Out of stock:(. Please restock the \$3.00 package!<3

darksrc - February 25, 2012, 4:19 am

Looking at getting a mc servers, could you pm me when they're ready to go thanks?
Cheers

~Ultim8um

djfhshady - February 25, 2012, 4:58 am

Yes ill pm you when they're ready. :)

Utilize - February 25, 2012, 6:05 am

PM me aswell please as I'm hoping to buy an intermediate ASAP :)

? Overc?de ?. - February 25, 2012, 10:41 am

Yeah me too, ill buy a package as soon as i get the pm<3.

Thanks.

Perry the Platypus - February 25, 2012, 12:18 pm

I'll buy the eight slot once you restock.

Please PM me once it has been restocked.

redpois0n - February 25, 2012, 12:27 pm

Only 3\$ for a beginner? Might buy. Seems cool

Big Baller Shot Caller - February 25, 2012, 2:08 pm

Fuck the \$3 servers are out of stock.

xCross7 - February 25, 2012, 2:30 pm

Waiting for them to get restocked. Taking a long time though.

Aspolale - February 29, 2012, 10:30 am

So whats happening :L :L I havent been able to login for what 2 / 3 weeks and now it just says my pw's wrong.

.sin - February 29, 2012, 12:56 pm

looks nice, i might buy but first i better build a server

ShellShock - February 29, 2012, 1:30 pm

My server's been down for ages as well now.. I've paid, but I can't access the MultiCraft control panel thing..

djfhshady - February 29, 2012, 2:20 pm

i am in the process of issuing peoples servers back to them this does take time when you have alot of clients, i am working as fast as i can and i can safely say that everyone should be back up by tomorrow evening.

Fuckwad - February 29, 2012, 2:32 pm

Hmm I really wanna buy a server, I think I may go with them.

SIM-985864 - February 29, 2012, 3:10 pm

I might buy but is there a dedicated ip?

Operating System - February 29, 2012, 3:18 pm

Sweet, I just bought a month of beginner.

djfs shady - February 29, 2012, 3:58 pm

(Feb 29, 2012 04:10 PM)AlphaKiloCharlie Wrote: [\[CITE\]](#) I might buy but is there a dedicated ip?
yes you can purchase a dedicated ip for an extra 2\$ per month, we assign them manually so that
can take up to 12 hours to arrive.

darksrc - February 29, 2012, 4:04 pm

Hey there, if I purchase a beginner now, can I immediately upgrade to pro or do I wait until there is
pro in stock? Also will I be double charged if I upgrade? And while I'm here, anymore promo codes ;)

~Ultim8um ?

SIM-985864 - February 29, 2012, 4:27 pm

When i come to buy 1, it says 0 Available. How fucking great lol

djfs shady - February 29, 2012, 11:45 pm

then unfortunately we are out of stock :L restock today though :)

and ultim8um - yes you can upgrade straight to pro and and you will be charged the difference fr
the upgrade for example:

beginnercraft = 3\$ for 1 month

procraft = 30\$ for 1 month

you would be charged 27\$ (the difference)

darksrc - February 29, 2012, 11:54 pm

Awesome, cheers

will try get one in the next 24 hours if available

~Ultim8um ?

Choi - March 1, 2012, 3:25 am

Does anybody have a test server i could have a look at?

If so please post

djfs shady - March 1, 2012, 7:45 am

mc.shadyshosting.com - hosted in the usa.

Exzib - March 2, 2012, 2:37 pm

Your test server is down or something, I am very interessted in the second package, but I want to
test a server first.

djfs shady - March 2, 2012, 3:23 pm

yes the test server is down as we are updating it to 1.2 craftbukkit

imajesterrrr - March 2, 2012, 4:49 pm

Nice! I will look in to shadyhosting. I need a good host.

SIM-985864 - March 3, 2012, 10:17 am

You should re-stock these since i decided i want a Beginner 1 to test out your services.

Exzib - March 3, 2012, 9:26 pm

Should fix the test server, I'm about to buy the second package..

Another questions.

Do we get access to the jar folder?

I mean so we can update to devuils and such.

djfshtady - March 3, 2012, 11:40 pm

you can request to have this feature enabled and you would upload your own jars in the /jar folder which is generated, we update on our end to the latest dev build each night. and the test server is coming back online today as i am updating the plugins which were enabled as they didn't work with the 1.2 update, and i don't particularly want the server grieved haha.

Test server is now back online you can come and join and test our connection :) <- hosted in the USA

Exzib - March 4, 2012, 5:01 am

There is a little delay, like when i hit, it takes about 0.5-1 sec to register the hit. And when i destroy a block it takes 0.5-1 sec for the block to pop up so i can pick it up.

This is maybe cause its in USA.

Could you confirm this?

djfshtady - March 4, 2012, 9:22 am

that will most likely me down to the servers location or possibly your internet, if you add us on skype: shadyshosting ill setup a quick test server in france for you to connect to.

Magnitudinem - March 10, 2012, 6:51 am

This looks like a really amazing hosting, just a shame the 512 MB servers are out of stock :(

djfshtady - March 10, 2012, 11:34 am

We will be restocking again in the next few hours.

djfshtady - March 20, 2012, 2:07 pm

We have restocked again! get yours before they are gone!!

djfshtady - April 25, 2012, 9:11 am

We have restocked again on servers, get yours before they're gone!

sirpeter666 - July 22, 2012, 6:04 pm

I vouch for this guy, Hes pretty cool

djfhady - July 30, 2012, 3:15 am

We have restocked more servers in France, In the coming week we will be restocking in the USA with a new location!

JTM CO HOST - August 4, 2012, 6:02 pm

%20 dam i have this hosting its no lag and the staff are the best go buy it if your into minecraft

Mudkip - August 6, 2012, 2:44 am

Vouch, have this hosting!

Thanks for the HQ hosting :D

djfhady - August 28, 2012, 2:32 pm

Restocked both USA and France, In the process of setting up another node in the USA so no orders will be processed there until this is complete.

We have now restocked in the USA buy your server now before we sell out again!

djfhady - August 30, 2012, 3:27 pm

Order a minecraft server within the next 48 hours and pm me for a special discount code exclusive to hf members!

djfhady - September 7, 2012, 4:42 am

We have restocked in the USA again.

djfhshady - September 15, 2012, 3:36 pm

We have restocked again in both our server locations, If coming from another host submit a ticket and we will discount you 30% and transfer all your data FREE OF CHARGE

djfhshady - September 18, 2012, 2:58 pm

Server Still Available! If coming from another host submit a ticket and we will discount you 30% and transfer all your data FREE OF CHARGE

Hacker16 - September 20, 2012, 10:48 pm

do u allow, booters? exploit packs? jdb's? http bots?

djfhshady - September 21, 2012, 3:18 am

This is for minecraft hosting :L you can't use them on a minecraft server

We still have servers available if coming from another host we will discount you 40% off your first month and move your data over at no extra cost!

OmegaGod - September 22, 2012, 6:58 pm

Err are these all on kimsufi? It looks like it.

djfhshady - September 23, 2012, 5:58 am

No they are directly from OVH, if they were kimsufi we wouldn't be able to offer SSD servers due to Kimsufi servers having hard drives.

djfhshady - September 24, 2012, 7:10 am

We still have servers available if coming from another host we will discount you 40% off your first month and move your data over at no extra cost!

djfhshady - October 2, 2012, 8:16 am

We still have servers available if coming from another host we will discount you 40% off your first month and move your data over at no extra cost!

Arm4L1t3 - October 5, 2012, 6:41 pm

Aw man, I misread as "Shady Hosting", and was hoping that you could use it for illegal things lol

djfhshady - October 7, 2012, 3:54 am

Limited time order a minecraft server for 6months+ and receive a massive 40% discount off your invoice! submit a ticket before ordering.

WienerNips - October 7, 2012, 6:27 pm

I currently have a tekkit server hosted on my computer. I'm currently thinking about buying your minecraft server from you and I have a couple questions.

1. Do your servers support tekkit?
2. If it does, can I upload my current world to your servers?

djfhshady - October 8, 2012, 12:08 am

Yes we do support tekkit we even have a tutorial on how to get it up and running, if you come into problems submit a support ticket and we can help you, and yes you can upload current worlds we give you full control over your server.

WienerNips - October 8, 2012, 6:56 am

Alright thanks for responding. I will be taking you for consideration.

djfishady - October 18, 2012, 2:34 pm

We have restocked our servers in Europe.

djfishady - November 7, 2012, 11:34 pm

Germany has been restocked again, get your server before they're gone!

djfishady - December 10, 2012, 5:23 pm

Not many servers left, get yours before its gone!

djfishady - January 14, 2013, 3:04 pm

We have a few servers left now, we will be restocking once these have been sold!

djfishady - February 4, 2013, 4:51 am

We have restocked our servers again, not many left though!

Kyle FYI™ - February 15, 2013, 8:53 pm

I can personally vouch for this host, I used it years ago. Its still up now!

djfishady - March 11, 2013, 7:46 am

Thank you for the vouch, we have just restocked our minecraft servers. use Promotional Code: MC20 for 20% off your first month.

Gpizzle - March 19, 2013, 4:43 pm

one of the best hosting providers around. This guys been up since 2006

djfishady - March 22, 2013, 11:55 am

Europe has been restocked, Usa and other locations will be stocked soon.

Rolex™ - March 26, 2013, 3:08 pm

Vouch for OP right here, good guy and great hosting.

Amnesia Haze - April 12, 2013, 5:15 am

Vouch for shady. As legit as it gets ?

djfishady - April 14, 2013, 4:13 pm

Thanks for the vouch, we have restocked again. <https://shadyshosting.com>

djfishady - May 14, 2013, 2:24 pm

We have restocked again in europe, usa will be restocked within the next week!
<https://shadyshosting.com/minecraft.php>

Pinkie Pie - May 14, 2013, 2:31 pm

Don't know if it was deliberate but I see what you did there!
Top NOTCH servers :D

Those are very nicely priced servers, good luck with sales.

Religious - May 15, 2013, 3:15 am

Does your multicraft support FTB?

acter

djfs shady - May 16, 2013, 1:14 am

Yes we support feed the beast. its selectable from the jar menu in the control panel.

djfs shady - June 11, 2013, 7:28 am

We have updated our plans each plan will be given free webhosting on request - submit a support ticket, we also supports more jars and allow you to upload your own jar files, main thread updated and we have restocked all locations!

djfs shady - August 6, 2013, 12:54 am

We have restocked again in the USA :)

Gpizzle - August 6, 2013, 5:41 pm

great hosting man I love this host :D

Marketplace - August 6, 2013, 5:56 pm
