Thread: [So Happy. So Fkn Happy.](#)

Dope Dreams - September 30, 2011, 7:48 am

So I was talking to my boy who goes to college with me. Were both hackers and he enjoys using hackforums.net to help him along the way. He told me about a way to make so much dough its honestly not even funny.

So I think I might retire from this shiz. And just go make a couple grand a day. Its only \$400 to start out. and you will make \$400 in less than 1 hour of work. Im about to drop out of college and live off of this method. I'm engaged and were getting married sometime next year, and she is the girl of my dreams. I am just so excited being 18, and about to make over 200k a year.

I just want to thank you HackForums and everyone who is a member. You guys have really helped me learn some pretty epic shit. I know I dont have many posts, but you dont understand how many tutorials I've read. Thanks guys. I dont know if Ill be on much anymore. I just bought a new car 2 days ago right off the lot. 2011 WRX Subaru 5-Speed. Its fucking raw.

Omarito - September 30, 2011, 7:52 am

I'm happy you're happy :)

But don't leave college, Try to make 200k aside with your education, Who knows that might turn out to be 2kk one day :)

danbirk - September 30, 2011, 7:54 am

Don't leave college.

And I doub't this is true.

whats the method about?

The Seller - September 30, 2011, 7:54 am

Yea man i wouldn't suggest leaving college, what if 2 months down the road it doesn't work out? What are you going to do?

Take it slow, but i wouldn't suggest leaving college honestly. Your decision, and hope you the best.

Sol Yurick - September 30, 2011, 7:55 am

I would not drop out of college. What about when this method does not work anymore, what will you do with no education?

Just2Raw™ - September 30, 2011, 7:57 am

Let the money pile before you do anything stupid. Every movie has its ending.

Phuziion - September 30, 2011, 7:59 am

Tell me the method so I can verify that it works.

MicroPhsyco™ - September 30, 2011, 8:03 am

I am Glad another HF member has gotten a path . .:)

I would say its not a wise decision to leave school.

Goodluck in your endeavors!

Cheers!

Simba™ - September 30, 2011, 8:36 am

Don't leave as you might fail at this sooner or later, if you do so you will be uneducated. Good luck.

Dope Dreams - September 30, 2011, 10:30 am

I don't think I am leaving college after reading 8 responses (: Thanks guys.

LionHeartLow - September 30, 2011, 11:27 am

yeah, dropping out would be the worst thing to do, because who knows, 3 weeks from now your method could go right down the drain, or your friend could just be a straight up liar.

He's apparently not since OP managed to buy a Subaru straight up with the money he got from the method.

@OP: Good luck, but stay in school. You need an education. Just because you won't use it for a career, just stay in college. If something goes wrong you have your degree or whatever to fall back on.

ColeTrain - October 1, 2011, 1:52 pm

This is what I thought when I was on \$300 a day, something changed and it went to \$20 a day. GG meh!

CyanogenMod - October 1, 2011, 2:16 pm

Good Work mate, I'm Jealous, but stay in school :)

Enjoy

JDM - October 1, 2011, 5:22 pm

lmao.

WRX? Sooooo slow, why not just get the STi. The new look is ugly as fuuckkkk too!

d4rkj4y - October 1, 2011, 9:45 pm

PICS OR GTFO OP

Your obviously stupid for dropping out, what if the method no longer works?

Then the next method will be a janitor at McDonalds.

ChineseFountain - October 1, 2011, 11:31 pm

Don't leave college. If you really believe that this will work out, then by all means do it but just in case do not drop out of college.

Dope Dreams - October 5, 2011, 11:03 am

What you guys don't understand is the method has been around for years and will be around for years as long as people use credit cards or any type of magnetic stripe writing.

Therefore with the way the money is today and because everyone uses their debit/credit card, this method will be around for at least another 10 years. And with the research I did, it is very illegal but it is the hardest crime to catch.

Bro, carders get caught every single freakin day.

Don't do it man, don't do it.

LiteFire - October 5, 2011, 12:06 pm

Is the method BlackHat? If so, I would not drop out of college. Actually I wouldnt drop out no matter way. You never know when the money flow will all of a sudden stop.

He's committing credit card fraud. It's not going to be offering the most luxurious lifestyle, regardless of what your friend says, most carders end up as slobs who get caught because they got lazy living off of someone else's bank account. You'd essentially be giving up your life for carding by dropping out, you obviously haven't thought this through at all OP

Waka Flocka - October 5, 2011, 6:45 pm

lol dude making 200k a year... No college no job...

have you see movies? once the cops get suspicion of you you will be in big trouble lol
you wont have any proof of income so you will be indicted

Dope Dreams - October 7, 2011, 10:08 am

Lol Well me and my boys have been getting away with it for awhile. Hes been doing it for years actually. But were moving on to bigger and better things. I have the brain and skills to be partnering with him and making about 100k everymonth and bro I dont need to worry bout getting caught. They dont know me. They never will.

FACT: I have never put my real info on the internet. Theres not one single picture of me, no finger prints. Nothing. Even the president of the security said that 70% of the time they come to dead ends. Just the other day some fraud make 300k in a week and never got caught. The USAs' debt will never change, so fuck it. Im talking bout straight cash flowing in and living it big. But no joke in love with this girl and im moving with her and we got an appartment we move out next month. Its to be with her family in vegas. but yo im not fucking around, I get dough. Fuck any ebook on the internet. Fuck shitcash, or adf.ly or anything. This method i do, like no one else, making me \$900 a day, then im saving up for \$26,000 then im buying a new piece and going hard, 100K every week. Then once i hit 2 million imma stop.

Echoes - October 7, 2011, 10:48 am

You shouldn't drop out of college to work, that'd be idiotic.

Goodluck on your marriage and income.

I LOVE RON PAUL - October 7, 2011, 11:27 am

If this is true, then awesome dude. I would love to card with a friend of mine, but nobody ever agrees to it :/

Sockatobi - October 7, 2011, 1:10 pm

Pretty crazy amount of cash you're getting.

And from what I've read, it's super illegal. You never know... You're says that the odds are for you, but you may still get caught. Just stay in college if you ever feel the need to stop doing this stuff.

LionHeartLow - October 7, 2011, 1:29 pm

How does your girlfriend feel about your radical new income? It's not something to be proud of really

SudoFox - October 7, 2011, 10:10 pm

fbi.gov

search bar

credit card fraud

1000s of pages of people being caught.

You might think you are smart, but they are smarter. Just a fair warning. They will catch you. ?

Are you like 12 years old? Do you really think he would have put his real info? And also do you think they are checking hackforums to find potential criminals? hahaha

Are you stupid? its against the rules to put false information when signing up to leet. Its pretty much begging for a ban.

I LOVE RON PAUL - October 8, 2011, 6:55 am

Do you think he actually cares? Do you also think that everyone uses their correct info? And yeah how would they even confirm that it's the right info? haha OMG a ban how shocking.

Vyrkfrir - October 8, 2011, 9:30 am

That's bloody fantastic, but I am going to have to agree with the others; leaving college is a sure path to destruction. Nothing good can come from it :/

Tentacruel - October 8, 2011, 10:04 am

It's great that you are making that much money, just be careful and stay as you are currently, leaving no trace.

Spoiler ([Click to View](#))No joke, Just before I came onto this thread I watched an episode of American Underworld. The things it had in it were Chop Shops, Carders and straight thugs,

<http://www.putlocker.com/file/7914BBDACF502E51> - If you do take a look at it, skip straight to 15m 30secs

to watch the section about the carder (the show is the work of a journalist and it shows real criminals doing what they do best)
