Yay, very glad you like it!

I was afraid that it was too long

Thank you very much

You're welcome, I'm doing another one today for simple userbars :)

scar123 - October 3, 2011, 4:15 am

Very nice tutorial mate, thank you very much

Quiet. - October 3, 2011, 4:16 am

Nice looking thread. And good information in the tutorial.

c3lzdGVt - October 3, 2011, 7:59 am

Everyone is more than welcome :)

If you want more just message me on what you'd like to see, and I'll do it tonight :)

Glad that i could have your first post :)
My pleasure.

Alpha Geek - October 5, 2011, 7:42 am

I'll have to try this tomorrow when I come back to BOCES.

I'll be sure to post my results when I can :)

c3lzdGVt - October 5, 2011, 7:47 am

Awesome, thanks :)
Can't wait to see the results :)

Uzi? - October 5, 2011, 10:07 am

Awesome tutorial man! Nicely laid and with the colouring and effects included.

Looks like a spotlight inside a green circle with a gray border. Try widening the light source a little bit. It would give a better result.

Cheers for the input, i see where your coming from but I'm not sure you fully understand what it is.

Also i did say that the glossy part was fully up to the user.
I just did that as it was simple, theres hundreds of ways to gloss an image.

xxPATRONxx - November 4, 2011, 3:37 pm

very nice tutorial

very strait forward and easy to follow

c3lzdGVt - November 5, 2011, 5:34 pm

thank you, if you would liek any other tutorial, be sure to say :)

triplex-x - November 5, 2011, 10:19 pm

nice tut ????????

Hakuna Matata - November 6, 2011, 10:03 am

Bookmarked it, will try it later!

Thanks alot.

c3lzdGVt - November 8, 2011, 10:27 am

glad i can help guys :)

more soon hopefully

Moufazin - November 8, 2011, 10:28 am

Looks pretty neat! Thanks for the tutorial m8.

LoG?c - November 9, 2011, 6:01 pm

For this guide you should of also added a video tut with it I like listening and while doing it and watching people do this also. It's the way I learn best, :)

Great job on the Tut though OP!

Heroicis - November 13, 2011, 2:57 pm

LOL @ my orb.

Great tutorial, Very detailed. I've been looking for how to do this. Will be using this a lot.

Livewire - November 13, 2011, 10:45 pm

Good tutorial. I will be trying this method and most likely implementing it in future works.

bot_kill - November 14, 2011, 11:18 pm

it nice and cool mate...

thank you for contribute this tutorial

Unker - November 27, 2011, 3:06 am

Very beautiful !!

Thanks for the tut ! :)

lacedweed - November 27, 2011, 7:40 am

Holy SHIT! That's freaking sick! 10/10 tutorial!

Sidious - November 29, 2011, 12:13 pm

Awesome tutorial I must say. Here's what I came out with:-

c3lzdGVt - November 30, 2011, 3:05 pm

Thank you everyone for the beautiful feedback!

I'm quite busy with commissioned 3d work atm, so i've had no time to make anymore tutorials - or even be active on HF like I was a few weeks back!

Please give some ideas on what you'd like to see in another tutorial!

Beautiful & awesome tutorial bro!

Thanks for sharing this.!

Jellal - December 1, 2011, 4:53 am

Very good tutorial and looks like you put some time into.

Although, I already know how to do this. It will help other members ^^

Should check my other simple one > [HERE](#)

it's not as popular, but I think it's way more useful!

Reddoom - December 3, 2011, 8:26 pm

Thanks bro, easy to read, pictures and it looks like you spent time on it. Good job,
