The edition you are currently reading is the 61st full edition. To read any older editions of HF News, please go [here](#).

First and for most, a proxy killer plug-in has been added. This is essentially for registration and logins and will no longer allow proxies of any type to be used while here on Hack Forums. A statement was also made, "Now whatcha gonna do bitches?" Hopefully his proxy killer will stay sturdy and filter all of the proxy's out there.

A new section has been added to the [Service and Offerings](#) forum. The new section is called, [Graphics Market](#) and is used to sell your services of graphics. If you have any type of graphics to sell, post them there.

It has been announced that [Opera Mini](#) has been firewalled. Multiple reasons were given, but the main statement is: "Sorry but the ban evaders and scammers use it like a VPN." This is primarily saying that too many people are using [Opera Mini](#) to access Hack Forums after being banned. Creating multiple accounts and scamming on Hack Forums is obviously not allowed, therefore he has put a foot down, in hope that it will limit those childish acts.

Be aware, there is an impersonator of [Omniscient](#) on Twitter. Please realize that the only Twitter [Hack Forums](#) uses is [@HackForumsNet](#). The person that is impersonating our fellow administrator is [@jesselabrocca](#). This person is posting infected links on the Twitter account, please do not download anything from this Twitter.

An official mods list has been added to the forum. You can view that [here](#). This page displays our forum moderators throughout Hack Forums and what forum they moderate. There is also a staff list at [here](#) which displays all of the staff regardless of the userbars they are wearing.

Hack Forums now has an official Google +1 button which can be located at the footer. This allows users to click the +1 and helps the site with overall SEO.

"Should the world focus on alternative energy and preserving life, or exploring space and colonizing planets?"

"This goes back to the basis of focus on you before worrying about others in the sense that we should focus on our own planet before screwing around with the rest. We're on the tip of the iceberg, freshwater is dwindling so is gas and who knows how long natural gas will last. Our energy is being produced from a finite resource. And I personally don't want to see WW3 fought over it. Therefore it is of the utmost importance for us to steer our focus directly toward SAFE and CLEAN alternative energy that is also renewable and infinite. On the subject of colonizing planets, it is a dream, America no longer has the capital to fund a space program let alone a full scale colonization effort even if we found a

viable planet. And booming countries such as China likely don't see any financial benefit in looking into this area. Therefore space exploration as of now is an expensive luxury the world cannot afford. These are my thoughts, I hope they cause you to ponder the current state of the world, if only for a brief moment. "

[-Fireren](#)

"First and foremost, we should be more focused on our own planet then trying to colonize another. If we cannot take care of our own planet, then what is stopping us from messing up another?"

The topic for next week is "What do you think of the Reputation Reset?"

The Bloodshed that has been present in Syria shows no limits, as lives continue to be taken and protest continue to rage in this region. Demonstrators have demanded for true democratic elections, as well as the removal of Bashar al-Assad, the current President of Syria. He was the son of former President, Hafez al-Assad, who also made many controversial calls during his own presidency. Hafez al-Assad is often criticized for authorizing the Hama Massacre, which was ordered to combat a revolt led by the Sunni Muslim community that targeted the regime of al-Assad. The deaths that resulted in the Hama Massacre is uncertain, although many credible sources give a count anywhere from 15,000 to 35,000 Syrian citizens. More can be read about the Hama Massacre [here](#). This massacre is very important to note, since the son of the man who ordered it is the current President of Syria. Apparently the apple doesn't fall far from the tree, because according to several credible sources, more than 3,000 protesters have been killed at the hands of Bashar al-Assad. More information on Bashar al-Assad can be found [here](#).

Perhaps you're wondering, what is the main cause of all this unrest in Syria? There are many answers to that question, although there is a common understanding between all of the protesters of what they're fighting for. The poor citizens of Syria are calling for the removal of Bashar al-Assad (as established in the previous paragraph), equal rights for Syria's ethnic and religious groups and more political freedoms such as freedom of press, speech, and assembly. These are the freedoms that many take for granted in other parts of the World. The term "President" is very misleading in Syria, since it's more of a dictatorship if anything. Bashar al-Assad has been elected twice, and he's gone unopposed both of these times. Water and electricity has been shut off in some areas, and some security forces are going as far as to confiscate food and flour. On top of the 3,000 Syrian citizens that have been killed, thousands have also been injured or detained. There have been reports of detainees being tortured or killed. What does the Syrian Government have to say about these accusations? The Syrian government has repeatedly denied the reports of defections and blames "armed gangs" for causing trouble. You can read more into the 2011 Syrian Uprising [here](#).

Interview with Joey Tribbiani ([Click to View](#))

Kyle FYI™ says:

Hello Joey Tribbiani, and thank you for participating in the 61st edition of HF News.

Do you have any shout outs to any one first of all?

Joey Tribbiani says:

Hey bugga, Wolves, Deities, Sir, Viral, BoodyE, Cobalt, Akinova, nidhish and Ethereal!

Kyle FYI™ says:
Okay cool. How did you find/join hackforums.net?
Joey Tribbiani says:
Honestly, I can't even remember how I found HF.

Kyle FYI™ says:
Oh haha. What do you think about the mentors have more power now?
Joey Tribbiani says:
It's good to have more powers so actions can be taken much faster. I hope this helps in lessening the staff's work load.

Kyle FYI™ says:
I think its a lot better. What do you think of Omniscient's recent activity?
Joey Tribbiani says:
He is doing what he can to make this site a better place. There are always going to be people having different view point. Not everyone needs can be satisfied. Decisions are taken keeping in mind how it will affect the majority.

Kyle FYI™ says:
What do you think about the vouch system?
Joey Tribbiani says:
I assume it is a system which will make HF a comparitively safer place for deals.

Kyle FYI™ says:
Yes same. What are your hobby's?
Joey Tribbiani says:
I like football, swimming, managing events for the high school fests etc...

Kyle FYI™ says:
What sort of music do you like?
Joey Tribbiani says:
Almost anything except dubstep and hardcore rock.

Kyle FYI™ says:
What sort of tv programs do you watch?
Joey Tribbiani says:
I like watching comedy and detective type of shows - White Collar, Bones, HIMYM, Castle, Two and Half Men etc..

Kyle FYI™ says:
Oh I love two and a half men. What do you think about them killing off Charlie and getting Ashton Kutcher in?
Joey Tribbiani says:
Ashton himself said that he can't replace Charlie Sheen, what more do I need to say...

Kyle FYI™ says:
It still wont be the same but any way. Do you play any games?
Joey Tribbiani says:
Yeah, I know. Let's see if Ashton can pull something close enough.
Joey Tribbiani says:
And no, I am not a gamer. I play CS 1.6 sometimes, but I am not a pro. I just play for the lulz...

Kyle FYI™ says:

Talking about gaming what do you think of the new minecrafters group?

Joey Tribbiani says:

I am not a gamer. So, gaming groups are just not for me to comment on.

Kyle FYI™ says:

aww okay then. To end this off if you had one wish what would it be and why?

Joey Tribbiani says:

I would like to switch places with Bill Gates.

Kyle FYI™ says:

And why would you like to switch places with him?

Joey Tribbiani says:

because it feels good to be one of the most successful person on Earth. Lol.

Kyle FYI™ says:

Haha well thank you for doing this interview I have enjoyed interviewing you.

In all honesty, the interviews aren't very well compiled. They are very generic with the 'how did you join?' and 'would you like to give a shoutout?' questions. Spice it up! Also, the interviewer's grammar is atrocious. The rest is great though.

As Sir has stated before, whether you like it or not, the news is staying as is.

In my opinion the news is better this way. The news twice a week is easier to write then one all compiled into a single day. This way there is less chance for errors, more information is gathered, then it gives us news publishers a chance to relax.

The misc edition publishes after the regular news essentially because more stuff happens later on. Besides, to much goes on in the miscellaneous edition to be added back into the regular news edition.

This is ridiculous. The news should not be posted at almost 1am, there is no excuse for that what so ever. Secondly, where is the user news? The opinions section really has no relevance to Hf at all. I seriously do not like the way things have been executed with the HF news recently. Time for some changes.

I do agree with itylernallen, although I personally don't care when it gets posted because I'm happen to read it overall. Although 1am is pretty late, but Cobalt+ and his crew does their best and more. Also the HF News and user news should be posted simultaneously, also the opinion idea I think is okay, but not. I like it sense well we get the opinions on viewers, but I don't like it because the HF News is fine and most of the viewers couldn't write the news anywhere as good as the HF News Team.

Also what do you mean when you say "Time for some changes."? Will you be running the HF News? The writ3r's group is expanding it's horizons... very nice and I welcome you if you're going to be running the HF news in the future. I also wish you a good luck ?. care if I can read it. So make the changes, but I do like neatness, organization, and above average grammar. If you get the confirmation to change the HF news, which edition will it be next? User news next? Or the next HF News?

The news is going to be a lot better soon.

;)

spikebites - October 3, 2011, 5:44 am

Just gonna drop my two cents in here.. but, the news without the user news is basically copy and pasting hackforums' twitter. That's all the news has become, is you reposting what Omni posted on his twitter, nothing new.

I was hoping to read something new/interesting in the news, but, all of this is I've known about and read days before.. so please reconsider adding user news or accomplishments or important threads back into this news. Or you might as well just "retweet" @hackforumsnet.

Keep it up guys!

Glassy - October 3, 2011, 1:30 pm

There is no need to talk about anything personal. We are in the same team as whole as well, so let's act like it. Now to get on topic relating to itylernallen post, I have the agree. The quality of the news is slacking. That is just my opinion. There are others who think different.

I think there needs to be more descriptive and more news. We should keep it once a week and include everything in the news thread. I am just showing my view towards the quality of the HF News at the moment. I am sure you guys will step it up and have more to include.

.edit - October 3, 2011, 1:33 pm

There's going to be a lot more news soon, you will find out why in due time.

Hell yeah, two of my tags. They are my worst though! Lol.

foxx378 - October 3, 2011, 1:49 pm

Excellent news edition, and on the plus side... those GFX made me almost have to change my pants haha..

Pointz - October 3, 2011, 2:17 pm

Do you guys just randomly pick who gets on the interviews?

Interviewers pick who they interview just so you know, not Sir or Cobalt+. Although they probably can make us

interview someone if they wanted to xD.

biasa199 - October 3, 2011, 6:19 pm

Very interesting. Thanks Cobalt

The editions are improving more and more, well done.

@Joey, seriously Bill Gates lol. (Oct 3, 2011 03:01 AM)itylernallen Wrote: [\[CITE\]](#) This is ridiculous. The news should not be posted at almost 1am, there is no excuse for that what so ever. Secondly, where is the user news? The opinions section really has no relevance to Hf at all. I seriously do not like the way things have been executed with the HF news recently. Time for some changes.

Oh my, chill out a bit they have two editions and people sometimes have IRL things to deal with. It actually read quite well and I am sure it will improve.

As for the 1am posting time, maybe others will say the same as you, like it is most likely 12pm here when posted, the world is round after all LMAO.

Ahhhh makes sense. So they just interview whoever they want. Pretty cool, I love the hackforum news.

Valence - October 3, 2011, 8:32 pm

Great edition guys. Once again, I'm glad to be a part of it.

Zetas - October 3, 2011, 8:34 pm

Is the user news gone? I really enjoyed that.

Are you kidding me.

Seriously.

Go read the last edition, and then go see the threads in the News section.

Thank you.

How you said it made it sound corrupt. Yes we interview who we want, but up to an extent. Interviewers do choose who they want to interview, but interviewers choose who deserves it and who they see as interesting. We don't interview people that are regular members, with 5 post, and -20 reputation.(An Example)

Short but nice edition. Keep it up folks!

LMAO Yeah I got what you meant, I didn't mean for it to sound corrupt, just to make it clear how it was, and of course those kind of users do not get selected to be interviewed. Thanks for clearing that up.

Bakepres - October 4, 2011, 1:40 am

Good edition again. At least with it coming out twice a week there is always something new every few days rather than a massive edition all at once then nothing for another week.

ComX - October 4, 2011, 9:49 am

The interviewers like me and Reported, choose who can be interviewed. But we do have an rule for who can get interviewed.

Tristan - October 4, 2011, 4:58 pm

Really Nice edition, good job News Team.

Should be "All of the proxies out there"

Nonmod - October 6, 2011, 1:43 am

What happens in coding section and other places?

For the love of god, include, please, some actual content.

I want to hear discussions about technology in general, read some developer interviews, stuff that matters.

This is HF, not Tabloid Forums.

When qwazz was there we heard news about every section.
What is going on and was, but now it is just the users who got banned or made some awards.
Although i love it but it is really missing somethings.
Thanks you wrote
