Android/Droid News:

- [Droid-Life](#) (Droid)
- [Android-Life](#) (Android general)
- [Phandroid](#) (Android general)
- [Android Central](#) (Android general)

Rooting/Modding/Customization:

- [XDA](#) (main forums)
- [XDA](#) (Android customization. They also have a good thread where people post their home screens. It's called "Post your homescreen ***BE APPROPRIATE***". I didn't add it as it's own link because I felt that there were too many XDA links already.)
- [XDA](#) (Apps)
- [MyColorScreen](#) (Android customization)
- [Just Reveal](#) (Android customization)
- [Android Forums](#) (Android rooting/modding)
- [Android Central Forums](#) (Android rooting/modding)
- [My Droid World](#) (Droid modding/rooting/leaks)

Buying Androids (off-contract):

- [Swappa](#)

Android Apps:

- [DroidFanz](#) (Requires an invite, but you can easily request one. Shouldn't be too hard to get one so long as you leave a nice note to the admin.)
- [Official Android Market](#)

Obviously there are thousands of other sites out there. These are just the ones that I think are worth checking out. I was bored so I made this thread. I know it's kind of random. lol

No problem, man. I was really bored so I thought of making this thread. Thought it'd help somebody.

Nice! Great compilation, mate :D

I'm used to XDA and AndroidPolice but I was seriously unaware there are so many sites dedicated to Android..

Will definitely look into it :D Hope I find something interesting, although the probability is kind of low, considering XDA exhausts ANYTHING Android :D

Bookmarked for future reference :)

Thanks again! :D

Cheers,
