Thread: [????\[On\]Get Usernames And Passwords + Database By Google \[\On\]????](#)

Sugawara - October 4, 2011, 12:14 am

This Tym I Have Bought Some Intresting Stuff Again ! [/b]

Google is Hacker's Biggest Friend and enemy too ... "

This Tutorial Is about Finding Username, Passwors, Databases with Google

so lets Start ...

1- open Google.com

2- Enter This Dork

filetype: This "pdo_mysql" (pass | passwd | password | pwd)

See the Search Results

[img]http://goo.gl/4OzRW[/img]

If you did nt find this type results then click on 2-3-4..30 pages. finally you'll find many websites

[img]http://goo.gl/erCMm[/img]

Now Click on site, You will got all datbase of website,

Dont Forgot to leave a Feedback if you like the post

New Here

Target :

Master in Java & Sql !

T-rom - October 4, 2011, 12:26 am

Heads up.

Don't copy and paste from other websites. you will be found out.

But good post

Sugawara - October 4, 2011, 12:28 am

I Made This Just Now ! :|

Anyways Thanks !

c3lzdGVt - October 4, 2011, 12:35 am

Pretty funny but not very usefull, good share though
