So me and some of my friends from my community having a new project, the title will be "Project Sentou Gakuen". Tasemu will also help me in designing the site. In short Sentou Gakuen is a web based mmorpg + online visual novel, with anime style and has school life theme. It's a web based so it will be coded in php, no clients download you just need a web browser. I'm using the MCCodes, yes that mafia web script game.

What is that?

Ever play a web based mmorpg? Something like Mafia Wars or somewhatsthis. If you havent know that, just google it. How about visual novel? A visual novel is an interactive fiction game featuring mostly static graphics, usually with anime-style art, or occasionally live-action stills or video footage. As the name might suggest, they resemble mixed-media novels or tableau vivant stage plays. The concept of this game will be similar like that, combining both visual novel and mmorpg in one.

The difference is, this is not about mafiosos, where you are don fuckgayretarded that robbing people here and there, slappin bitch here and there, forming your own gangs, etc etc. It would be pointless to make that kind of mafia based game, there's tons of them on the net. But in here, the player will take role as a new freshman student at "Sentou High School".

Just like usual mmorpg, player will have each stats. To increase stats they have to take some lessons and attending class (For example if you want to increase your strength you have to take PE Physical Education class). Another stats are such as

Energy, its required if you want to do training

Willpower, this is the efficiency of your actions. Will would be bigger if you bought a more luxurious dorm room.

Action Points, studying, cheating at test, peeping at girls, need this

Experience, only stupid that doesnt know what's this means

Health, if u run out of this you will be sent to infirmary

More Explanations

Like what I said before, I'm planning to imbue Visual Novel elements on this game, where the story of the game will be told, "The Story Mode". The tutorial part also will be explained in Visual Novel-way. Probably this is the first Online Visual Novel that ever exist, because I never found one. The story mode, are optional, this will be you might say 'Quests'. Players are free whether to do it or not. After the player finished the story, the game didn't ended, but they can continue the game, thus this game is open ended.

As for money, there are various ways to get this. The good way are obtaining it through part time job or studying. The bad way are obtained through brave-taking actions such as peeping at girls and then sell the photos, steal the exams answer and then sell it to your friends, or etc. But beware this can make you imprisoned at Detention Center.

In order to protect yourself (Or PvP cases), the students can equip themselves with deadly weapons such as pencils, ball point pens, tweezers, rulers, staplers, scissors, pepper spray or etc. And armors.

For more intense gameplay, the students can form their own gangs I mean clubs which require some fees to be established.

Additional notes, there are special club where the members are appointed specially by staff such as :

- Newspaper club, they are in charge of publishing School Newspapers
- Student council, alias moderator, they will be in charge of discussion forums-in-game. Led by Student Council President alias Super Moderator.

Any other things that's not listed here, feel free to give suggestions.

#### Characters

These are the characters that will be introduced in game.

I need some people to beta test the game and report any bugs or unbalance in the game. At the moment the registration is still closed until the game is ready, atm everything is far from finished, so if there's any of you interested to be beta tester just reply on this thread, Visual Novel/Eroge fans are preferable, I need a proper feedback.

I also need someone that good in english and can make a good and interesting story. Because the story is not finished yet.

So is there anyone up to?

Estimated Release Date

1 January 2012

**Tasemu** - October 4, 2011, 10:22 pm

Great idea, but i dont think we should rush this until we have everything in order.

Yeah, I kinda rush this project, because I might be busy 3-4 months (around january) from now for some reasons and thus I wont be able to code when that time comes.

Actually I've been planning this for a long long time (anime themed online vn + rpg thingy), and just

last month I started my actual works and designing the vn framework on mccodes.

Don't worry tasemu, you do everything as planned. Leave the rest to me ?

**SewDough** - October 5, 2011, 12:55 am

I'll beta test.

I am, after all, an experienced eroge player.

**Sejskaler** - October 5, 2011, 1:19 am

I'll join the beta test, if possible, and also, if there is some empty space in the team, i would like to join in.

I find it a great project, so please keep going ;)

I am experienced RPG player, if it is for the beta test ^\_^

**Theref** - October 5, 2011, 3:17 am

PM ed both of you.

And as for staff, we need story writer

**Layfon** - October 5, 2011, 12:18 pm

xD so it is gonna be a HEAVILY edited mafiawars game script huh

Sounds fun in the future.

**Okazaki** - October 5, 2011, 12:46 pm

Sure i could test this ^\_^ I've always wanted to play a VN but my download speed has always been my downfall D:

although i have played lots of RPG's

**Layfon** - October 5, 2011, 2:08 pm

wtf okazaki, in that case torrent it :D

**Eclipse** - October 5, 2011, 2:50 pm

Whoa, it looks great. I hope its released soon, I'm looking forward to this (:

**Almost** - October 5, 2011, 4:55 pm

Huge doubts this will go well but it sounds like a pretty gangster setup.

**SavageBoys** - October 5, 2011, 6:06 pm

Sentou Gakuen?

I know it means something Academy but what?

I can't deny those facts. Lots of my friends doubt me too, they said similar thing. However everyone has their own opinion,  
I'll just try my best here, realizing my idea.

Oh and, I'm closing the registration again untill the game reach several checkpoints.

.Credit - October 6, 2011, 6:14 am

Sounds epic, Reminds me of the story i'm writing xD, though, that begun as a Shool life based story, but ended up beeing all about other kinds of stuff

Tasemu - October 6, 2011, 7:24 am

Yer i would doubt him, but then again ive seen the amount of stuff he has up on HentaiLegends and it doesnt sound so silly anymore. ^^

SavageBoys - October 8, 2011, 11:41 pm

Probably just me but the characters seem.. expressionless? Flat?

Kinda psuedo FSN, are they placeholders?

This guy:  
Takeuchi Iwao

Does not fit his one-liner, What I mean by this is if you look at him things don't add up, someone like that would have sharp, intense eyes and a confident look on there face. And his pose, too relaxed not a confident relaxed its kinda the relaxed that you see when someones standing next to one of there friends chatting.

Only gripe I got with the script that Ive seen is that its long winded, I see parts where it can be cut down.

Other than that it looks good so far man :D

Okazaki - October 9, 2011, 12:10 am

the 3 guys look good, but the females faces look...dumb xD sorry but they really do

although the guys look nice :D

Kind of interested in how this turns out, also.

IT HAD BETTER NOT BE CENSORED. (If it involves that.)

**Happeh** - October 11, 2011, 11:43 pm

I'll be happy to help out in anyway I can. I recieved an A in English, and have beta tested a few games before.

Is it just a script that needs to be integrated into the sites pages?

Or does the script need to be linked to buttons and whatnot in the sites layout?

Hmm I don't really know about designing. There's php files, images folder and css folder. All graphics that's used at the site are on that images folder.

The site look can be customized through the .css files. So I guess I need that css to be customized along with the images so that it wont look like mafia-ish

Thats easy as heck.

I could give it a go, work on it for you on a trial basis, if you like it ill stick round till tasemu is able to more actively work on it for you.

thanks to Evolution ?

Btw guys I need some proofreaders to check the grammar mistake of the story. If you're interested to help me, hit me up, since I myself are not native english speaker so there's a lot of mistakes here and there ?

Open Registration

We are opening the registration again at 16 October 2011 | 21:00-24:00 GMT+7. Feel free to explore around the game and report any bugs you may encounter. Good Luck!

Just remember! this game is still far far away from finished, if you find any bugs, horrible grammar

mistake, bad joke, I really-really sorry, you can post any suggestions at student council.

[Video: <http://www.youtube.com/watch?v=HoBjp5-hF2g>]

For the upcoming Halloween event we are opening the registration again at 30 October 2011 | 00:00 GMT+7. And exactly one day after that, there will be special events called 'Zombie Attack!'. There will be special prize for two winners who could survive and one who kills the most in the event. Good Luck!

Onizuka Wrote:5-10 random people who are currently exploring around or strolling shibuya are 'bitten by a wandering zombie', starting the plague - in addition, everyone who registers during the

event is a zombie. Now these people are zombies. Every time they attack someone and win, they are presented with the normal three options (mug, hospitalize, leave) and a fourth - Bite person. Biting that person turns the attacked guy into a zombie as well.

After a specified amount of time, the event is over - everyone who is still a human gets a prize, and the zombie with the most kills get prizes.
