Thread: [FREE SHELLS :D ~ kobeZ](#)

kobeZ - October 7, 2011, 4:00 am

Same deal people, if you want some shells, post here and i will PM you the shell links. The only reason i do this is to stop the shitcunt leechers deleting the shell.

And if you deface, I get credits or a shoutout! ?

~kobeZ

SIM-888979 - October 7, 2011, 4:02 am

Let's say you give me a shell. Will that shell be given out again or will it be just private for me? Interested in this btw :D

kobeZ - October 7, 2011, 4:05 am

Well everyone i give the shells out to, i do it on the post by post basis, first come first serve :) that way i can keep track of who deletes shells.

Also i can give you a super private shell if you want ;)

~X.x.X~ - October 7, 2011, 4:06 am

i need an private shell not c99 c 100 r57 etc..

Xeder - October 7, 2011, 4:50 am

I could also use shell or two if you don't mind. Not for defacement, just to look around to see how it looks like:) Thanks in advance.

kobez - October 7, 2011, 4:58 am

Someone is DDOSING the host, so the shells are taking forever to load, if they do load, so come get em while their HOT!

Hey bro, I want a shell which have uploaded on Linux 2.6.18 2010.

If you can give me any other shell link, which have uploaded on linux server (must have public root exploit), then it would be great for me.

Thanks in advance.
