Thread: [JAYS BOOTER PROBLEM-WONT OPEN! :\(HELP](#)

GBooter - October 7, 2011, 5:11 am

When i just downloaded JAYS BOOTER, It says this message...

'the application failed to initalize properly. Click on OK to terminate the problem.'

and ive tried downloading 2 differnat types of JAYS booter still the same thing, please help.

Control Panel -> Windows Update -> Check for updates.

Wait for sometime till it finish.

GBooter - October 7, 2011, 6:00 am

ive did this, it's taking a v.long time to update it LOL + wilol this let me download jays after this? :)

ihatethissite - December 2, 2011, 3:06 pm

wow this is the stupidest nice person ass waste of time site on the face of the planet, i want through all that signup shit to view this and then its no help?? fuck all of you
what? lol it censors the n word. lol now its to short so i cant post? im done

JOSHmrocks123 - December 9, 2011, 6:54 pm

Hey where you get free booter from bro

Libertas - December 9, 2011, 6:58 pm

Nice ing for your first post !

Here's what u looking for :

Heyzen - December 9, 2011, 9:06 pm

Why would you even use Jays Booter? Use some thing better.

Abdul-Rehman123 - December 10, 2011, 1:51 am

YOU NEED TO INSTALL MICROSOFT NET FRAMEWORK 3.5

Johnnyboy5698 - December 15, 2011, 10:14 pm

Its a windows issue. Try right click>Properties> Compatibility and play around with that

One other thing, you may not have though of, make sure you keep ALL the file you downloaded in the SAME file, or else it will not work.

maximus1026 - February 2, 2013, 4:39 pm

i sorta had the same thing. i downloaded a file, (jaysbooter.rar) then i tried to extract the file so i can run the application. iv'e tried a couple of times and it never opened.

PLZ HELP!!! ?[/font]
