nice tutorial very detailed and would love to try this out could i get the link please

Xxbbb123 - October 24, 2011, 10:50 pm

yea you can even send a virus directly to a website or ip with the net send command in Xp as well but it has to be a script virus only and there are a few steps envolved.

how to find a vulnerable site? ;)

Actually, it should be placed in the "Hacking Tutorials" section

<https://hackforums.net/forumdisplay.php?fid=47>

Use google dorks to find vulnerable sites.
