Thread: [\[Tips\] Buying Online, iOffer, DX, DC, Dres, Phones, USBs -Detailed-](#)

Neal Caffrey - October 8, 2011, 6:52 pm

Hi guys.

So I've noticed ALOT of new threads about everything from buying Dr Dre Tours, to Whether websites are Legit.

So I've made some quick tips to buying online

iOfferSpoiler [\(Click to View\)](#)

The site iOffer is Legit, its just the sellers that are fraudulent. Its best to keep in mind that alot of the sellers here 99%+ are From China, so you'll be getting goods from China.

Type of Items: The buyers sell all kinds of things, Electronics, toys etc.

Shipping: Cannot be certain, Anywhere from 1 Week to 3 Months, depending on the seller.

Quality: Again, depends on the seller.

Payment: Its always Paypal, so you can chargeback if they scam ?

Refunding: Certain buyers will offer refunds. You have to pay for it most of the time though.

Tips when buying from iOffer.

Always make sure the user fits one of the Criteria:

1. Has 100 Transactions with a 99%+ Positive Feedback rating.
2. Has 500 Transactions with a 95%+ Positive Feedback rating.

Deal-Cool

Spoiler [\(Click to View\)](#)

DealCool is a very legit site that I have used many times. Items are very good, prices are a little expensive, but well-worth the quality.

Type of Items: You can buy all sorts of toys and electronics here. People mostly buy Electronics from here.

Shipping: Its very good. It takes 2-3 Weeks to ship the item.

Quality: Depending on the item. If you buy something cheap, you'll get something cheap. If you buy something expensive, you'll get HQ Items.

Payment: You can pay with PayPal or WU.

Refunding: Refunds are available. You have to pay for the shipping to go back.

Deal-Extreme

Spoiler ([Click to View](#))

Deal Extreme is a very good site for CHEAP electronics. It's not likely they're too HQ, but for the price's they offer, you won't get any better.

Type of Items: You can buy all sorts of toys and electronics here. People mostly buy Electronics from here.

Shipping: Its very good. It took me 2 weeks to get my items. Deal-Extreme shipping packaging is horrible though.

Quality: Depending on the item. If you buy something cheap, you'll get something cheap. If you buy something expensive, odds are you'll get a cheap item anyway.

Payment: You can pay with PayPal or Credit card, which is very convenient.

Refunding: Refunds are available. You have to pay for the shipping to go back.

DHGate.

Spoiler ([Click to View](#))

The site DHGATE is Legit, but again depends on the sellers. All items come from China. It's basically a website where factories post their ads.

Type of Items: Anything! Electronics, clothes, jewelry, tools, etc...

Shipping: Depends on the seller (if he ships by chinapost, ems, dhl...)

Quality: Depends on seller.

Payment: Paypal, Western union or Bank transfer (e-wallet), Credit Card

Refunding: You can open refunds cases with sellers. If he doesn't agree to refund you, you can escalate the case to DHGATE for arbitration.

Tips when buying from iOffer. Always make sure the user fits one of the Criteria:

1. Has over 100 Transactions
2. Has 90%+ or more positive feedback

Chat with the seller if you have any questions about the item, shipping. You can even negotiate the price or ask for additional pictures.

Dr Dre Tours and Solo.

Best place to get a set of Solos with the box and all the accessories? The original black and red ones, no special designs or anything.

I honestly have no experience in Solos, only in the tours because I haven't bought any solos.
If you want, I can go through some older threads and dug up some links and info for you :)

Don't get fucked by the school.
And make it no refunds :)

Deal cool info is now invalid, unless you want to risk buying from them.

Good base, the B Rubs off though, but if its for personal use, shouldn't matter too much.
