Thread: [\[FREE\]Giving away exclusive user images!](#)

SIM-810273 - October 11, 2011, 11:17 am

These user images can be found no where on the internet except on my website, and even then I updated them for my site so they look nicer. Any how I want to release these free for everyone to use and enjoy. If you can just give credit to me "B36" and add a link to my HF profile if you respect the give-away

I doubt that you made them. Where did you get them from?

I 100% made them, I have the PSD's as well for them all.

The initial template was provided by a mate, I added the colour/image and text. Just because I am a normal non-L33T/UB3R doesn't mean I go and steal other peoples work then sell it, that is very unethical.

I will give you \$50 via Paypal if you can find this anywhere else.

PMed you all the password, enjoy and make your forums bad-ass :)

If you cannot leave a trial to how you got them, then no problem. I won't go and try suing you (I don't think I could lmao).

Enjoy!
