Thread: [Webclient Hacking](#)

clearlyahacker - *October 14, 2011, 12:36 am*

?Hey guys i was curious say you want to hack a webclient that a webpage lets u download would u have to hack the website to get to the client? or is there a way of getting into the client?

kobez - *October 14, 2011, 12:37 am*

Depends what the site is, there are thousands of sites like this.

But let me guess, a game hack client that only downloads to VIP's?

clearlyahacker - *October 14, 2011, 12:40 am*

What you mean by VIP,s and wouldnt the client be hosted on a different server to the website?

VIP = having to pay to download the client.

Not necessarily, its most likely hosted on the same box.
