Hi guys.

If I was able to get a hold of those two account, or any other account, how much would it go for on HF?

I haven't hacked them yet, but I might be able to get access to those email accounts.

You'll get some good cash from both they could cost somewhere from \$30-\$40

BTW, are you cabable to hack any gmail account by request? How much do you get paid per one?

Yea I might be able to, but I disagree. \$30-40 isn't good cash.

You can get \$200+ each email. You have to find a good forum for selling this. Good luck

They are ugly IMO, I wouldn't pay a lot for either of them.

Don't get too over your head OP.

Not my favorite mails either, but I just wanted to know what rare emails go for these days.

You know nothing shut up.

Maybe if you have those AIMs, but certainly you won't get that amount for an email.

Hmm sounds like there are shared opinions on this matter. I might try to get a hold of those Gmails, to see if I can make some money from them.

Thank you for the heads up. I'll close my thread now, since it doesn't matter anymore.

No sense in hacking those emails now.
