Very legit company/LEGAL Stress tester. 100% legit. Fast Service!

Xeant - October 16, 2011, 12:10 am

We're not a stress tester hehe. And we are legal due to offshore hosting.

I purchased 1 hour service to test on a site, after payment I was redirected to an account suspended page.

Xeant - October 16, 2011, 1:11 pm

Hey, i received your payment. It was a \$3.00 Basic DDoS. Please come on live chat so we can trial the IP and then begin the DDoS.

Our Page is not suspended, are you sure it was ddosnet.net?

Orgy - October 16, 2011, 2:16 pm

Not to trash or anything, but do you really think that you're safe because it's "offshore"?

I will login to live chat and test it out.

Well I tried to visit the website and get a page can not be displayed error. Eh hh, oh well.
