Absolutely wonderful. I'll show you what I meant with the stroke for my Ava. I didn't mean take it
crop and resize. I meant putting a stroke around it. So yes...
Thank you...you mind hitting me up with the .psd.

Its not that bad at all. I agree. I was saying it was the worst you made however its actually not bad at all. I agree the problem was the icon but I was trying to say you could have spent a little more time working on the Icon but I didn't know about your arm!
