Thread: [Should i make a Anime Episode\(weekly update\) Thread?](#)

OzTech - October 17, 2011, 1:19 am

Heyy Guys

I was thinking of making a sort of weekly update thread for the latest Anime eps. and also state where to DI it. or watch it due to rules.

Thanks :)

If you like this idea then please state what Anime would you like to be update and stated ;)

You can incorporate this into Tasemu's weekly anime news thread. Sounds like a neat idea.

How do you plan to do it though. Actually writing what happened during the episodes is pretty much just spoilers. Showing where to download is a good idea though.

Im not 100% sure what you plan, if you mean you want to write out what happens in each episode of a popular ongoing anime that will only lead to members who have seen it re-reading a short version or members who haven't seen it yet getting spoilers.

Explain it to me more so u understand fully but im happy to incorporate it if its a good idea. ^^

speaking for myself ^

just put the new Anime Episode's DI and Streaming link's.
nothing that can spoiled it.
