Why you feel you should be upgraded. I feel i should be upgraded because Since i joined the hackforums community i have reinforced my knowledge and am currently working on a little project that i will release to public soon.Will be my first and i think good giveaway which many members will enjoy,besides that id say im pretty chill and im always down to help any member even if they havent asked for help.I feel like it would make a difference between my current normal member status and upgraded because i would be able to access upgraded parts of this site which are still unknown to me and i would learn new things which then i could use to help out others and write tutorials.

I wrote this lastnight at around 5 in the morning i was a bit tired and i just wanted to specify my current knowledge includes: rat setup,spreading methods,i am learning .net currently working on a crypter,SQL injection,Shell booter setup,shell exploitation which include webdav,xml,sql exploited shells...thats about it for now.i wanna thank you guys for this oppotunity and may whoever desserves it the most get upgraded.

Why you feel you should be upgraded. I signed to HF to RAT. And ratcrew helped me a lot...this could be a thank to all of you guys. Well it's important to be in a crew, gives more respect from others and makes me feel important. Plus all "good" threads are blocked to normal users....so I would love it.

Why you feel you should be upgraded? Spoiler ([Click to View](#))

I would like to be upgraded to L33T because it will allow me to enter the market place in confident, make some good money hopefully selling gamertags (which require L33T+ to post in that section) then the first \$18.99 I make I will give to Omni in return for UB3R, then my next one will be a upgrade for someone else from regular to L33T.

I have quite a few give aways I want to do, I've done some in the past but the really good ones I want to keep until I finally get L33T (via upgrade contests like this or if I can afford to buy my own upgrade).

Below are some of my contributions and give-aways on HF.
