Li0n Simple Binder V1.1

Coded by Li0n coder

Features:

- [+]bind unlimited number of files
- [+]support any file extension
- [+]support Win OS [XP,Vista,7,8] 32bit & 64bit
- [+]no resource or end of file use, bye avira
- [+]each exe will be different so it will be FUD for a long time
- [+]coded by Delphi ==> no .net dependency

how to use?

- 1- open the binder and select the files you like to bind
- 2- binder will generate Stub.dpr
- 3- copy Stub.dpr to compiler folder
- 4- click build
- 5- stub.exe will be generated

that is all, simple huh

if you like, you can download Delphi IDE and modify Stub.dpr
you can easily add icon, version info, even you can add message box
then compile it
