Thread: [I need help with my Algebra 1 homework!](#)

Dionysius - October 19, 2011, 4:46 pm

Well I suck at Algebra and I know there are alot of smart people on HF so I decided I would ask for some help here. If you can Pm me and I will take a picture of the paper or we can go in Skype or something. I would really appreciate it.

I think the answer is -5. I'm doing it in my head though, so you should probably double check it.

yeikel - October 19, 2011, 5:04 pm

I cant help u on skype because I speak spanish , but I can give u the answer step by step if u need (-5 and +5 are the answer)

Dionysius - October 19, 2011, 5:55 pm

Can anyone help me? Everyone got off or have other things to do.

dashoota - October 19, 2011, 6:00 pm

I can help you, just send a PM my way.

Dakotaz10 - October 21, 2011, 1:22 pm

I'm pretty sure I could help you, considering I do your homework at lunch -.-

virtualghost - October 21, 2011, 1:26 pm

I can help you,here in my country we are focused on algebra from the 5th grade.

Dionysius - October 26, 2011, 6:30 pm

Hey guys, I just got a new worksheet that I need help on. Post here if you are willing to help me!

Nope, I learn nothing. My teacher sucks and doesn't help us at all and it's stuff we have learned over the year not recent so I cannot even remember anything on the paper.

J4QU1M3 - October 26, 2011, 6:59 pm

i dont have 10 posts but ill attempt to help

Dionysius - November 2, 2011, 7:12 pm

Once again I need help with my homework. This one shouldn't take to long, I hate math so much. Anyways, just Pm me if you could do this for me, I would really appreciate it.

Mesmaroth - November 2, 2011, 7:15 pm

You should of use the money you bought Uber and used it on a math tutor.

Post your math problems here and we will help you.

i just sent u a pm i will try to help u i have not took a math class for over a year now. but im pretty good at math

Dionysius - November 8, 2011, 4:17 pm

Okay, this is probably the last time I will need help with my Algebra for awhile so yea.... Anyways, I am just going to post the pictures here so it's easy and quick.

Spoiler [\(Click to View\)](#)1. Simplify

a. $-5x-6(4x-9)$

b. $8-(9x+10)$

Solve for x.

a. $-6x + 30 = -24$

b. $4 - 9x = -15$

c. $10 = -8 + 4x$

d. $-21 = 14 - 7x$

e. $6 - x = -14$

f. $9x = -50$

3. Write an equation for the sequence -10, 1, 12..

Equation:___

4. (18,84) and (26, 128)

Equation:___

5. (-20,55) and (8,48)

Equation:___

9. If y varies directly with x and y is 12 and x is 20, then if y = 20 then x =

10. If y is directly proportional to x and y is -40 and x = -16 then if x = 2 then y =

11. $y = -5x + 12$

x intercept (,)

y intercept (,)

12. $y = -60 + 8x$

start (,)

zero (,)

That is all, I understand if you can't answer them all.
